Rachel Beck has hit a brick wall. She's a single mom, still living at home and trying to keep a dying relationship alive. Aside from her daughter, the one bright light in Rachel's life is her job as the night reservations manager at a luxury hotel in Miami Beach—until the night she is fired for something she didn't do. On impulse, Rachel inquires about a management position at a brewery hotel on an island in Lake Erie called Kelleys Island. When she's offered the job, Rachel packs up her daughter and makes the cross country move. What she finds on Kelleys Island is Mason, a handsome, moody man who knows everything about brewing beer and nothing about running a hotel. Especially one that's barely more than foundation and studs. It's not the job Rachel was looking for, but Mason offers her a chance to help build a hotel—and rebuild her own life—from the ground up. **The Nation Insights Level 1 Teacher's Book Pack** A free-standing 120-page component no longer bound into the SB/WB, as was the case with American Inspiration for Teens. Gene understands stories—comic book stories, in particular. Big action. Bigger thrills. And the hero always wins. But Gene doesn't get sports. As a kid, his friends called him "Stick" and every basketball game he played ended in pain. He lost interest in basketball long ago, but at the high school where he now teaches, it's all anyone can talk about. The men's varsity team, the Dragons, is having a phenomenal season that's been decades in the making. Each victory brings them closer to their ultimate goal: the California State Championships. Once Gene gets to know these young all-stars, he realizes that their story is just as thrilling as anything he's seen on a comic book page. He knows he has to follow this epic to its end. What he doesn't know yet is that this season is not only going to change the Dragons's lives, but his own life as well. **The Monthly Cumulative Book Index The Annual American Catalogue 1886-1900 Being the Full Titles, with Descriptive Notes, of All Books Recorded in the Publishers' Weekly, 1886-1900 with Author, Title, and Subject Index, Publishers' Annual Lists, and Directory of Publishers** **Skirts Fashioning Modern Femininity in the Twentieth Century** *St. Martin's Press* In a sparkling, beautifully illustrated social history, *Skirts* traces the shifting roles of women over the twentieth century through the era's most iconic and influential dresses. While the story of women's liberation has often been framed by the growing acceptance of pants over the twentieth century, the most important and influential female fashions of the era featured skirts. Suffragists and soldiers marched in skirts; the heroines of the Civil Rights Movement took a stand in skirts. Frida Kahlo and Georgia O'Keeffe revolutionized modern art and Marie Curie won two Nobel Prizes in skirts. When NASA put a man on the moon, "the computer wore a skirt," in the words of one of those "computers", mathematician Katherine G. Johnson. As women made strides towards equality in the voting booth, the workforce, and the world at large, their wardrobes evolved with them. They did not need to "wear the pants" to be powerful or progressive; the dress itself became modern as designers like Mariano Fortuny, Coco Chanel, Jean Patou, and Diane von Furstenberg redefined femininity for a new era. Kimberly Chrisman-Campbell's *Skirts* looks at the history of twentieth-century womenswear through the lens of game-changing styles like the Little Black Dress and the Bar Suit, as well as more obscure innovations like the Taxi dress or the Popover dress, which came with a matching potholder. These influential garments illuminate the times in which they were first worn—and the women who wore them—while continuing to shape contemporary fashion and even opening the door for a genderfluid future of skirts. At once an authoritative work of history and a delightfully entertaining romp through decades of fashion, *Skirts* charts the changing fortunes, freedoms, and aspirations of women themselves. **Finlay Donovan Is Killing It A Mystery** *Minotaur Books* "Getting the job done" for one single mom takes on a whole new meaning in *Finlay Donovan Is Killing It*. Books of 2021 Nominated for the Left Coast Crime 2022 Lefty Award for the Best Humorous Mystery “Funny and smart, twisty and surprising.”—Megan Miranda Finlay Donovan is killing it . . . except, she’s really not. She’s a stressed-out single-mom of two and struggling novelist, Finlay’s life is in chaos: the new book she promised her literary agent isn’t written, her ex-husband fired the nanny without telling her, and this morning she had to send her four-year-old to school with hair duct-taped to her head after an incident with scissors. When Finlay is overheard discussing the plot of her new suspense novel with her agent over lunch, she’s mistaken for a contract killer, and inadvertently accepts an offer to dispose of a problem husband in order to make ends meet . . . Soon, Finlay discovers that crime in real life is a lot more difficult than its fictional counterpart, as she becomes tangled in a real-life murder investigation. Fast-paced, deliciously witty, and wholeheartedly authentic in depicting the frustrations and triumphs of motherhood in all its messiness, hilarity, and heartfelt moment, Finlay Donovan *Is Killing It* is the first in a brilliant new series from YA Edgar Award nominee Elle Cosimano. **The Publishers Weekly The United States Catalog Supplement. When the Durrells could no longer endure the gray English climate, they did what any sensible family would do: sold their house and relocated to the sun-soaked island of Corfu. As they settled into their new home, hilarious mishaps ensued as a ten-year-old Gerald Durrell pursued his interest in natural history and explored the island’s fauna. Soon, toads and tortoises, bats and butterflies—as well as scorpions, geckos, ladybugs, praying mantises, octopuses, pigeons, and gulls—became a common sight in the Durrell villa. In the process, he shows us how digital advertising—the beating heart of the internet—is at risk of collapsing, and that its potential demise bears an uncanny resemblance to the housing crisis of 2008. From the unreliability of advertising numbers and the unregulated automation of advertising bidding wars, to the simple fact that online ads mostly fail to work, Hwang demonstrates that while consumers’ attention has never been more prized, the true value of that attention itself—much like subprime mortgages—is wildly misrepresented. And if online advertising goes belly-up, the internet—and its free services—will suddenly be accessible only to those who can afford it. Deeply researched, convincing, and alarming, *Subprime Attention Crisis* will change the way you look at the internet, and its precarious future. FSG Originals x *Logic* dissects the way technology functions in everyday lives. The titans of Silicon Valley, for all their utopian imaginings, never really had our best interests at heart: recent threats to democracy, truth, privacy, and safety, as a result of tech’s reckless pursuit of progress, have shown as much. We present an alternate story, one that delights in capturing technology in all its contradictions and innovation, across borders and socioeconomic divisions, from history through the future, beyond platitudes and PR hype, and past doom and gloom. Our collaboration features four brief but provocative forays into the tech industry’s many worlds, and aspires to incite fresh conversations about technology focused on nuanced and accessible explorations of the emerging tools that reorganize and redefine life today. **The Language Teacher's Voice The American Review of Reviews The American Catalogue ... In our current moment of crisis, *Guardians of the Trees* is an essential roadmap for moving forward and the inspiring story of one woman’s quest to heal the world. When Webb first traveled to Indonesian Borneo at 21 to study orangutans, she was both awestruck by the beauty of her surroundings and heartbroken by the rainforest destruction she witnessed. As she got to know the local communities, she realized that their need to pay for expensive healthcare led directly to the rampant logging, which in turn imperiled their health and safety even further. Webb realized her true calling was at the intersection of medicine and conservation. After graduating with honors from the Yale School of Medicine, Webb returned to Borneo, listening to local communities about their solutions for how to both protect the rainforests and improve their lives. Founding two non-profits, Health in Harmony in the U.S. and ASRI in Indonesia, Webb and her local and international teams partnered with rainforest communities, building a clinic, developing regenerative economies, providing

educational opportunities, and dramatically transforming the region. But just when everything was going right, Webb was stung by a deadly box jellyfish and would spend the next four years fighting for her life, a fight that would lead her to rethink everything. Was she ready to expand her work to a global scale and take climate change head on? **New Inspiration Level 3.
