It presents a series of chapters for primary teachers seeking to implement the Statutory Orders for Geography in the National Curriculum. Steering a middle course between the sophistications of a theoretical/methodological text and the over-simplifications of a 'tips-for-teachers' approach, the authors highlight the positive opportunities offered by the National Curriculum. At the same time they are critical of many aspects of the Statutory Orders, without losing sight of their objective to help teachers to improve the quality of primary geography teaching. The book is especially useful for INSET work for teachers who have already grappled with National Curriculum Geography and who will be adjusting to the post-Dearing rearrangements. **Assessment and Intervention Resource for Hispanic Children Singular** Assessment and Intervention Resource for Hispanic Children is an illuminating resource guide that presents important theory and research as it applies to the clinical process with clients who are communicatively impaired and bilingual. Opening with the powerful and tender "Ode to the Hymen," Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, friend, and poet of conscience that will be familiar from earlier collections, each episode and memory burnished by the wisdom and grace and humor of looking back. In such poems as "Ode to My Sister," "Ode of Broken Loyalty," "Ode to My Whiteness," "Blow Job Ode," and "Ode to the Last Thirty-Eight Trees in New York City Visible from This Window," Olds treats us to an intimate examination that, like all her work, is universal, by turns searing and charming in its honesty. From the bodily joys and sorrows of childhood to the deaths of those dearest to us, Olds shapes the world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader. **Communicative Language Teaching An Introduction Cambridge University Press** The communicative approach is changing the face of foreign language teaching. What languages, or what varieties of a language, are to be taught and learned, and how? By whom, for whom, for what purposes and in what contexts? Such questions concern not only policy makers but also teachers, parents, students, as well as businesspeople, politicians, and other social actors. For Japan, a nation state with ideologies of national identity strongly tied to language, these issues have long been of particular concern. This volume presents the cacophony of voices in the field of language education in

contemporary Japan, with its focus on English language education. It explores the complex and intricate relationships between the “local” and the “global,” and more specifically the links between the levels of policy, educational institutions, classrooms, and the individual. In the much-contested field of foreign language teaching in Japan, this book takes the reader directly to the places that really matter. With the help of expert guides in the fields of anthropology, sociology and linguistics, we are invited to join a vital discussion about the potentially revolutionary implications of the Japanese government’s policy of teaching Japanese citizens to not only passively engage with written English texts but to actually use English as a means of global communication.” – Robert Aspinall, PhD (Oxford), Professor, Faculty of Economics, Department of Social Systems, Shiga University, Japan This insightful book about language education involves different disciplines using ethnographic methods. Both ‘native’ and ‘non-native’ speakers of Japanese (or English) collaboratively examine two different types of qualitative approaches in Japan – the positivistic and the processual. This is a must-have book for researchers and educators of language who are interested in not only Japan but also language education generally.” – Shinji Sato, PhD (Columbia), Director of the Japanese Language Program, Department of East Asian Studies, Princeton University, USA.
