Talking Business: Making Communication Work

Routledge Internal communication is a growing field with the number of specialists increasing worldwide. In spite of this, and vast increases in spending on communication, research shows that organizations are finding it difficult to raise the number of employees who feel well informed. Now, more than ever, internal communication does not just concern communication managers. In today's lean organizations line managers are taking on more and more of the burden of employee communication and managers of remote offices have to be their own communication managers. 'Talking Business: making communication work' addresses the key issues in communication within organizations, supported by case studies taken from experience of working with global businesses. It provides a coherent theory of business communication and shows how a radical difference to communication practice and business performance can be made. The authors employ an interactive structure throughout with signposts to link related cases and chapters.

Legal Language and Business Communication

Springer This book discusses the proper use of legal language in business communication. While communicating, a business leader has to bear in mind the relevant legal framework, and be sure to never violate it. However, legal language in itself can be so complex and difficult that it is often unclear as to what meaning can be ascribed to different words and phrases used in a particular context. Also, while it's easy to say that there are certain limits to the law, those limits are not readily visible to the uninitiated; occasionally, even experts flounder. Exploring precisely these topics, the book will be of interest to students of business, law, and business communication; managers; lawyers; researchers; practitioners; and general readers alike.
