Doctor Who: Now We Are Six Hundred A Collection of Time Lord Verse HarperCollins With illustrations by Russell T Davies, original showrunner of the new-era Doctor Who, the first ever Doctor Who poetry collection—a charming, funny and whimsical illustrated collection of verse that celebrates the joys and pitfalls of getting older . . . Time-Lord older. Like many of us, the older they get, the more Time Lords realize how little they understand the universe around them. This delightful collection of poems—the first volume of Doctor Who verse published—offers moments of insight, wit, and reassurance for the maturing inhabitants of Gallifrey (and everywhere else), including such delights as: THE END When I was One I was not much fun When I was Two I was barely through When I was Three I liked strong tea When I was Four I hated a bore When I was Five I was really alive When I was Six I somehow could never quite fit in to what was expected of me, well, not exactly but that was because things weren't neat and there are no easy rhymes in the universe and scansion, my dear Peri, is a thing that's really overrated and you only have to look at a sunset to realise that creation itself is a poem and oh no wait, got it, of course, Fix! The line needed to end with Fix! (Or tricks. That's works too.) When I was Seven I sent the gods to Heaven When I was Eight Kissing was great When I was Nine I had forgotten time When I was Ten I began again When I was Eleven I totally got even When I was Twelve, I became as clever as clever And now I think I'll be Twelve for ever and ever* (*Unless, of course, there is a terrible catastrophe involving explosions, radiation, or heights. And then I guess we'll find out what comes next. But the eyebrows won't be as good.) The Small Screen Adventures of Russell T Davies Biographies and Autobiographies. Triumph of a Time Lord Regenerating Doctor Who in the Twenty-first Century Bloomsbury Publishing Before Saturday March 26th 2005, "Doctor Who" had been off the air as a regular, new TV series for more than fifteen years; until a production team led by Russell T. Davies re-imagined the programme so successfully, so triumphantly, that it's become an instant Christmas tradition, a BAFTA winner, an international 'superbrand' and a number one rated show. It's even been credited with reinventing family TV. This is the first full-length book to

explore the 'new Who' phenomenon through to the casting of Matt Smith as the new Doctor. It explores "Doctor Who" through contemporary debates in TV Studies about quality TV and how can we define TV series as both 'cult' and 'mainstream'. Further, the book challenges assumptions in focusing on the importance of breath-taking, dramatic moments along with narrative structures, and in analysing the significance of Murray Gold's music as well as the series' visual representations. Matt Hills is a lifelong "Who" fan and he also considers the role of fandom in the show's return. He investigates too the multi-generic identity, the monster-led format, and the time-travelling brand of BBC Wales' 'Doctor Who'. In the twenty-first century, TV is changing, but the last of the Time Lords has been more than ready: he's been fantastic. **The Making of Doctor Who Pan Doctor Who Annual 2006 Doctor Who: City of Death (Target Collection) Random House Discover the new Doctor Who classics. Letters to My Children CreateSpace What follows (part dialogue, part monologue, mostly rumination) is a series of letters I wrote to my two children, Chris(topher) Russell and Alex(andra) Sophia, over the course of 24 years. The first letter is one I wrote to my son on his day of birth: November 25, 1991; the last is one I wrote to my daughter leading up to her twenty-first birthday on June 8, 2015. Some letters are missing from this publication: they're either lost to other computers, other hard drives, other floppy discs-or are still in storage in the Bronx. I may or may not be able to recover them ever again. What, then, is-and was, from its genesis-the rationale for these letters? Quite simply, a desire to recall, as accurately as possible, the physical, moral and cognitive development of my two children year by year, and blow by blow, as they grew from infancy to toddlerhood, and from childhood to adolescence. But why? So that if they ever needed to, they could one day look back and understand a large part of what made (and makes) them who they are as adults in all of their scintillating functionality or dysfunctionality. This publication may or may not prove to be a worthy addition-or at least a side note-to the ever-raging debate of Nature vs. Nurture. I'm not a psychologist. I'm a writer ... "with a gift [or at least a head] for fiction" (David Mamet, State and Main) to boot. And so, I must warn you: caveat lector! That said, these letters are the verbal foundation of a truth I aspired to establish early on with my children. What I conveyed often enough orally to my son from the moment he could understand English-namely, "You don't lie to me; I won't lie to you"-was never easy for either of us to embrace. And in some sense, at least, I made my part of the bargain easier by concealing lots of difficult truths until his eighteenth birthday (in 2009), when I suspected he'd be better able to handle those truths in written form. He was. And did. On that basis, and once I'd returned to Brooklyn just short of a month ago, I decided to risk the same with Alex, and consequently gave her all of the letters I'd addressed to her and that I could still access. But why should anyone have any interest whatsoever in an otherwise private correspondence between a father and his children? I can't say that anyone will. That said, no one has ever written a series of letters to his or her children over the course of nineteen years (if one includes those children's day of birth). At least, not that I know of. We all think thoughts; forge memories; bond, then break bonds; grow close, then grow apart. But too much of what occurs to a child gets lost in the shuffle-or worse, gets suppressed, only to raise its arrogant head in some other form(s) in adulthood. The events that first kept us together as a family unit-but then blew us apart-were nothing I could've anticipated in my wildest dreams or nightmares. The strategies my children and I have employed to keep us close over the years are ones the children of estranged parents will hardly consider novel. But the words my two children said (and sometimes wrote in e-mails) to me are some of the

kindest, most considerate-and yes, most loving-I've ever heard out of the mouth of any child. In that sense, this collection is a gift to all parents for whom it's not already too late. While not everyone has the free time I've had over the years, not to mention a facility with writing candidly about family matters for future reference. I don't know that such a facility is really all that important; I rather think it's the gesture, the consistency, the promise made and kept. The royalties, should there be any, are entirely theirs-as are the responsibilities that come with publishing a book. I will henceforth let them speak for themselves. As of this Father's Day in 2015-just as on other Father's Days in years past-I couldn't be happier with either of them. But that's a father speaking. Caveat emptor!
