German Romanticism and Its Institutions

Princeton University Press Using an illuminating method that challenges the popular notion of Romanticism as aesthetic escapism, Theodore Ziolkowski explores five institutions--mining, law, madhouses, universities, and museums--that provide the socio-historical context for German Romantic culture. He shows how German writers and thinkers helped to shape these five institutions, all of which assumed their modern form during the Romantic period, and how these social structures in turn contributed to major literary works through image, plot, character, and theme. "Ziolkowski cannot fail to impress the reader with a breadth of erudition that reveals fascinating intersections in the life and works of an artist.... He conveys the sense of energy and idealism that fueled Schiller and Goethe, Fichte and Hegel, Hoffmann and Novalis...."--Emily Grosholz, The Hudson Review "[This book] should be put in the hands of every student who is seriously interested in the subject, and I cannot imagine a scholar in the field who will not learn from it and be delighted with it."--Hans Eichner, Journal of English and Germanic Philology "Ziolkowski is among those who go beyond lip-service to the historical and are able to show concretely the ways in which generic and thematic intentions are inextricably enmeshed with local and specific institutional circumstances."--Virgil Nemoianu, MLN

The Queen's Adept

Sportula Ediciones The People's Covenant and God's Hammer have raged a Cold War that has lasted for over twenty years. A war without armies, where battles are fought in the dark and information is the most dangerous weapon. In this world —which sometimes seems the Middle Ages, sometimes the Renaissance and sometimes the Nineteenth Century— lives Yáxtor Brandan, empirical adept at the service of the Queen of Alboné. A relentless, amoral and unscrupulous character, Yáxtor fights to recover his own past as he tries to prevent a new player in the espionage game to end the world, as he knows it. A fascinating fast-moving and complex plot, full of tension and surprises and excellently paced; a main character for whom it should be impossible to feel the slightest sympathy, and yet somehow we do, even as his cruelty disturbs us more and more -an extremely difficult feat to pull off so successfully; powerful secondary actors, who either leave you with a sense of uneasiness with regard to their motivations and loyalties, or make you want to shout out -as people did in the early days of cinema- "Look out, don't trust him!"; and a pervading atmosphere of tragedy, especially in a final unexpected and shocking, yet on reflection almost inevitable, scene. In short, a totally addictive and highly original novel set in a world that is at once both strangely familiar and disturbingly alien. —Steve Redwood, author of Fisher of Devils.

The University and Urban Revival

Out of the Ivory Tower and Into the Streets

University of Pennsylvania Press In the last quarter of the twentieth century, urban colleges and universities found themselves enveloped by the poverty, crime, and physical decline that afflicted American cities. Some institutions turned inward, trying to insulate themselves rather than address the problems in their own backyards. Others attempted to develop better community relations, though changes were hard to sustain. Spurred by an unprecedented crime wave in 1996, University of Pennsylvania President Judith Rodin knew that the time for urgent action had arrived, and she set a new course of proactive community engagement for her university. Her dedication to the revitalization of West Philadelphia was guided by her role not only as president but also as a woman and a mother with a deep affection for her hometown. The goal was to build capacity back into a severely distressed inner-city neighborhood—educational capacity, retail capacity, quality-of-life capacity, and especially economic capacity—guided by the belief that "town and

gown" could unite as one richly diverse community. Cities rely on their academic institutions as stable places of employment, cultural centers, civic partners, and concentrated populations of consumers for local business and services. And a competitive university demands a vibrant neighborhood to meet the needs of its faculty, staff, and students. In keeping with their mission, urban universities are uniquely positioned to lead their communities in revitalization efforts, yet this effort requires resolute persistence. During Rodin's administration (1994-2004), the Chronicle of Higher Education referred to Penn's progress as a "national model of constructive town-gown interaction and partnership." This book narrates the challenges, frustrations, and successes of Penn's campaign, and its prospects for long-term change.
