White Zombie

Anatomy of a Horror Film

McFarland The 1932 horror film *White Zombie* starring Bela Lugosi has received controversial attention from film reviewers and scholars—but it is unarguably a cult classic worthy of study. This book analyzes the film text from nearly every possible viewpoint, using both academic and popular film theories. Also supplied is an extensive intellectual history of the predecessor works to *White Zombie*, as well as information on the significance it carried for subsequent books and films, its theatrical release around the country, its modern cultural influence, and the attempts to restore the film to its original state. Other noteworthy features of this work include an in-depth biography of *White Zombie* director Victor Halperin, the first complete study of his life and career, and 244 images and photographs.

Teaching, Learning and the Curriculum in Secondary Schools

A Reader

Routledge The articles which make up this reader provide both overview and analysis of the central issues in secondary education. Focused closely upon what it means to teach and learn in the modern secondary classroom, this book provides invaluable insight into the development of secondary education today. It is an ideal introduction to the task of teachers in secondary schools. Issues covered in the book include: the new agenda around teaching and learning effective pedagogy the teacher-student relationship teaching, learning and the digital age grouping by ability managing the curriculum change assessment equal opportunities and educational change This is the lead book in a series which bring together collections of articles by highly experienced educators which introduce, explore and illuminate the issues surrounding teaching in secondary schools. They are invaluable resources for those training to become teachers, newly qualified teachers and more experienced practitioners, particularly those mentoring NQTs.
