THE EU AND THE PROLIFERATION OF INTEGRATION PRINCIPLES UNDER THE LISBON TREATY

Routledge The entry into force of the Lisbon Treaty has brought about a proliferation of "integration principles". In addition to the environmental integration principle, which has been part of the EU legal framework for some time, the Lisbon Treaty introduced the principles of gender equality integration, social policy integration, non-discrimination integration, consumer protection integration as well as animal welfare integration. Furthermore, a general principle of integration policy objectives is contained in Article 7 TFEU, requiring that the Union must ensure consistency between its policies and activities, taking all relevant policy requirements listed under the TFEU into account in the adoption of any legislative measure. These integration principles must be pursued, or at least taken into account, when decisions are being taken in almost any area of EU policy-making. However, there is considerable uncertainty regarding the normative implications of the various integration principles as well as their legal value and practical relevance for EU policymaking. This book addresses the implications of the proliferation of sectorial integration principles and the introduction of a universal requirement of policy consistency in terms of the division of competences between the Union and the Member States as well as the scope for judicial review of the EU legislative process. In particular, it explores whether the introduction of various integration principles has led to an extension of Union competences and whether it has limited the scope for judicial review by extending the discretionary power of the Union institutions.

CBT FOR COLLEGE STUDENTS WITH ADHD

A CLINICAL GUIDE TO ACCESS

Springer This book provides an overview of the ACCESS program, a mental health program that has been developed and tested as an efficacious treatment for college students with ADHD. This program is at the cutting edge of clinical research, incorporating treatment strategies that allow for dissemination in real world settings in order to effectively assist college students experiencing difficulties in their academic, personal, social, and emotional functioning. As cognitive behavioral approaches have proved to be the most successful psychological treatments to date, the techniques in this volume follow that model in a detailed and nuanced fashion. The authors provide a week by week breakdown of the program, supplemented by handouts and worksheets designed to facilitate better understanding of the areas targeted by the program. Filling a notable gap in research addressing the ADHD college student population, CBT for College Students with ADHD is a crucial resource for campus mental health practitioners as well as a broad range of clinicians dealing with emerging adults.

AUTODESK REVIT 2018 MEP FUNDAMENTALS - METRIC UNITS

AUTODESK AUTHORIZED PUBLISHER

Ascent, Center for Technical Knowledge To take full advantage of Building Information Modeling, the Autodesk(R) Revit(R) 2018 MEP: Fundamentals student guide has been designed to teach the concepts and principles of creating 3D parametric models of MEP system from engineering design through construction documentation. The student guide is intended to introduce students to the software's user interface and the basic HVAC, electrical, and piping/plumbing components that make the Autodesk Revit software a powerful and flexible engineering modeling tool. The student guide will also familiarize students with the tools required to create, document, and print the parametric model. The examples and practices are designed to take the students through the basics of a full MEP project from linking in an architectural model to construction documents. Topics Covered Working with the Autodesk Revit software's basic viewing, drawing, and editing commands. Inserting and connecting MEP components and using the System Browser. Working with linked architectural files. Creating spaces and zones so that you can analyze heating and cooling loads. Creating HVAC networks with air terminals, mechanical equipment, ducts, and pipes. Creating plumbing networks with plumbing fixtures and pipes. Creating electrical circuits with electrical equipment, devices, and lighting fixtures and adding cable trays and conduits. Creating HVAC and plumbing systems with automatic duct and piping layouts. Testing duct, piping and electrical systems. Creating and annotating construction documents. Adding tags and creating schedules. Detailing in the Autodesk Revit software. Prerequisites This student guide introduces the fundamental skills in learning the Autodesk Revit MEP software. It is highly recommended that students have experience and knowledge in MEP engineering and its terminology.

This volume includes the work of: Daniel Gilbert Annie McKee Gretchen Spreitzer Teresa M. Amabile How to be human at work. HBR's Emotional Intelligence Series features smart, essential reading on the human side of professional life from the pages of Harvard Business Review. Each book in the series offers proven research showing how our emotions impact our work lives, practical advice for managing difficult people and situations, and inspiring essays on what it means to tend to our emotional well-being at work. Uplifting and practical, these books describe the social skills that are critical for ambitious professionals to master. "

SOFTWARE ENGINEERING FOR LARGE SOFTWARE SYSTEMS

Springer Science & Business Media These proceedings include tutorials and papers presented at the Sixth CSR Conference on the topic of Large Software Systems. The aim of the Conference was to identify solutions to the problems of developing and maintaining large software systems, based on approaches which are currently being undertaken by software practitioners. These proceedings are intended to make these solutions more widely available to the software industry. The papers from software practitioners describe:

- important working systems, highlighting their problems and successes;
- techniques for large system development and maintenance, including project management, quality management, incremental delivery, system security, in dependent V & V, and reverse engineering. In addition, academic and industrial researchers discuss the practical impact of current research in formal methods, object-oriented design and advanced environments. The keynote paper is provided by Professor Brian Warboys of ICL and the University of Manchester, who masterminded the development of the ICL VME Operating System, and the production of the first database-driven software engineering environment (CADES). The proceedings commence with reports of the two tutorial sessions which preceded the conference:
 - Professor Keith Bennett of the Centre for Software Maintenance at Durham University on Software Maintenance;
 - Professor John McDermid of the University of York on

Systems Engineering Environments for High Integrity Systems. The remaining papers deal with reports on existing systems (starting with Professor Warboys' keynote paper), approaches to large systems development, methods for large systems maintenance and the expected impact of current research.

IMMORTAL CREATION

SISTER WITCHES

Lenora and Leonia are two powerful witches, but more than that, they are closely bonded sisters. So, when Leonia meets Orin, and decides to take a chance on the man of her dreams, her entire life is turned inside out. Embracing her chance at love, could mean having to change everything she is. Lenora doesn't care for her sister's new love interest, and she sets her sights elsewhere. She takes pity on a couple of unfortunate villagers, creating the first vampires. Now, it's up to Leonia and Orin to correct her mistake, but the stakes are high. The price could very well be their lives. Leonia is determined to keep her new love from harm's way, though, no matter the cost. Even if it means losing the one person, she loves the most. Come along on this journey full of vampires, witches, and werecats--where the heartaches of love and betrayal become twisted by the hands of fate.
