A comprehensive visual reference, the book covers everything a home sewer craves: the basics of sewing by hand or machine, along with five other time-honored crafts techniques, and step-by-step instructions for more than 150 projects that reflect not only Martha Stewart's depth of experience and crafting expertise, but also her singular sense of style. Encyclopedic in scope, the book features two main parts to help you brush up on the basics and take your skills to a new level. First, the Techniques section guides readers through Sewing, Appliqué, Embroidery, Quilting, Dyeing, and Printing. Following that, the Projects A to Z section features more than 150 clever ideas (including many no-sew projects), all illustrated and explained with the clear, detailed instructions that have become a signature of Martha Stewart's magazines, books, and television shows. An enclosed CD includes full-size clothing patterns as well as templates that can be easily produced on a home printer. Fabric, thread, and tool glossaries identify the properties, workability, and best uses of common sewing materials. And, perhaps best of all, when you need it most, Martha and her talented team of crafts editors offer you the reassurance that you really can make it yourself. The projects are as delightful as they are imaginative, and include classic Roman shades, hand-drawn stuffed animals, an easy upholstered blanket chest, a quilted crib bumper, French knot-embellished pillowcases and sheets, and Japanese-embroidered table linens, among many others. With gorgeous color photographs as well as expert instruction, this handy guide will surely encourage beginners and keep sewers and crafters of all experience levels wonderfully busy for many years to come.

## From Thread to Needle

### Contemporary Embroidery Art

Gingko Press Embroidery has long been relegated to the work of women in the home, seen as mere decoration on tablecloths, curtains and men's clothing. The craft, despite its intricacies, has historically been perceived as an act of domestic labor rather than of creative talent. But in the 1960's and 70's, feminists utilizing needlework and embroidery started reclaiming their techniques as works of art. From Thread to Needle: Contemporary Embroidery Art features the work of 84 contemporary artists from all generations across the globe and their influences, technical challenges and the messages they wish to convey through their embroidery art. Using a myriad of materials, such as cotton canvas, photographs, plastic, garbage and wire mesh, these artists bring new life into a supposed antiquated skill. The gorgeous full-page illustrations throughout the book highlight the vast possibilities of embroidery, and through their raw emotion shatter the perception of the craft as strictly feminine.

They're about to be cut off from the outside world, and she's not sure she can handle the solitude or the darkness it brings out in her. Then a group of teens get stranded near the mansion during a blizzard. Seda has no choice but to offer them shelter, even though she knows danger lurks in the dilapidated mansion—and in herself. And as the snow continues to fall, what Seda fears most is about to become her reality...*

## The Magic Vine Quilt

*Quilt in a Day. Grow a flower garden in beautiful fabrics to grace your bed or wall as Eleanor Burns presents Magic Vine. The patterns for Magic Vine originated in the 1930's in a newspaper quilt column written by Florence LaGanke Harris. As part of a series, LaGanke presented one new pattern each week. In addition to the pattern, the reader was treated to a fictitious story about a quilt group and their leader, Nancy Page. In the group, they shared stories, and decided on what colors to use for their flowers. Twenty-two flowers are appliqued in rows with twinning vines. It is magical because of the variety of flowers that grow on the vine. The vine grows quickly, like the magic vine in Jack and the Beanstalk. Whimsical flowers and leaves are easily made, using lightweight paper backed adhesive or the quick turn method using non-woven fusible interfacing. The outside edges are finished with a variety of techniques: satin stitch, blanket stitch, blind hemstitch, and hand applique. Give Magic Vine a traditional 1930's look using reproduction fabrics or bright and contemporary with vibrant batiks. Enjoy embellishing the flowers with hand or machine stitches, beads, and crystals. Eleanor offers assistance on fabric selection and yardage and cutting charts for all five quilt sizes. Bonus projects are included. The book is conveniently bound in wire-o to lay flat.*
