Saving Jaguar

Porter Press This book tells the story of how John Egan gradually overcame the odds and, piece by piece, rebuilt this great company, winning over the workforce, the overseas dealers and, most important of all, the customers. Working with Margaret Thatcher and her Government, Egan and his team of managers overcame every obstacle, every set-back, every challenge. Again and again, it looked impossible. Yet using innovative techniques, intelligence, eloquence, openness, motor racing and much more, they saved this most charismatic company which has created some of the finest and most loved motor cars of all time. It is an amazing story that will appeal equally to car enthusiasts, those in business and readers interested in social history.

Essentials of Electroacupuncture 3rd Edition

Essentials of Electroacupuncture, 3rd Edition adds new and valuable resources to the previous editions. It is a formal textbook, which provides complete and detailed instructions how to perform electroacupuncture for stroke, polyneuropathy, spinal disc disease, and other disorders. There are 6.8 million stroke survivors and 20 million polyneuropathy patients in the United States. When the paralysis and the pain are treated by electroacupuncture, wheelchairs, walkers and prescription drugs become unnecessary. The author is a board-certified internist, and he maintains a pain management acupuncture practice in Burbank, California. In this updated edition, Dr. Choi articulates the theoretical and technical basis of the practice, detailing its history and development, diagnostic principles, and techniques for safe and effective treatment. The new edition adds to explanations and prescriptions related to the extraordinary channels, the four types of body constitution, and pulse diagnosis. When the extraordinary channels and the diagnostic schemes are used, clinical remissions arrive earlier. The importance of the source of channel energy and its movement is stressed with new selections from the writings of legendary acupuncturists Pian Que and Hua Tuo. The result is a more comprehensive explanation of the practice and theory of acupuncture as a whole, and electroacupuncture specifically. A valuable guide and instruction book for practicing acupuncturists, students, and those interested in Chinese traditional medicine, Essentials of Electroacupuncture, 3rd Edition honors past masters of acupuncture while looking toward the future.

Jaguar XK DIY Restoration & Maintenance

Porter Press An absolute sensation when first seen in 1948, in the midst of post-war austerity, the Jaguar XK 120 was both a stunningly beautiful car sold to all the top film stars, and a ruthlessly successful rally machine--and it remains just as effective on both counts today. A perfect XK 120, 140 or 150 could easily cost six figures in pounds, dollars or euros today--so how practical is it to buy a neglected example and restore it at home? This is the story of how one man completely restored his XK 120 roadster, transforming it from dereliction into a thoroughly beautiful example of this iconic sports car. He also took the time to investigate and incorporate numerous detail improvements, making the car even more usable and practical for today's roads, some 65 years after it was built. Cable TV engineer Bob Exelby has a lifetime of home classic car rebuilds behind him and shares all the nuggets of information, advice and tips gleaned through his own blood (literally), sweat and tears over 50 years of 'playing with old cars'. Even the most experienced make mistakes, and he freely shares his so that others can avoid them. This book is invaluable if you want to know what makes an XK 'tick', and if it's the classic car for you--and vital if you own or are restoring one.

Fighting the Dragon

How I Beat Multiple Sclerosis

Createspace Independent Pub For decades, traditional medicine had very little to offer for individuals suffering from multiple sclerosis and other autoimmune diseases. Today, medical science has brought us wave upon wave of immunomodulatory medications to try to slow disease progression. Unfortunately, these medications come with their own health- and life-threatening side effects. And sometimes, they just stop working. "Fighting the Dragon: How I Beat Multiple Sclerosis" is the story of one woman's thirty year battle with multiple sclerosis and what she did to reclaim her life when she realized she would need an assisted living facility within a few years. The book contains detailed descriptions of what worked and what did not, where she got the help she needed (and how the reader can locate these resources within his/her own community), and the logic behind the non-conventional therapies. "Fighting the Dragon" is a narrative of courage--courage driven by desperation, a story written by a patient who decided, when her neurologist told her, "You will never walk normally again," that she would dance. "Fighting the Dragon" is also a book the MS patient can take to his/her physician . . . it contains well-researched, easy-to-follow guidelines for what to do and how. The information is also applicable to a wide range of other autoimmune conditions, cancers, and AIDS. ***** Excerpt: . . . if your car kept breaking down and the mechanic you took it to kept doing the same thing to fix it--but it did not stay fixed, you would question the mechanic's competence. Maybe the mechanic pulled out a technical manual. "See. I fixed it exactly as the manual said. This is the industry-approved way to solve this problem." When the car broke down again a week later, would you be satisfied? Probably not. You might decide it is time to replace the car. But that might be too expensive. So, what to do? If you were smart, you would probably try to find a new mechanic. You might ask your friends who they would recommend. You might search on the Internet to see if other people had the same experience with their cars . . . and what caused the problem. You might telephone some repair shops to get some idea of what they thought the problem might be. If you found a new mechanic and that mechanic looked over the car and said, "I have a solution that is not in any industry-approved repair manuals, but it is safe and it works,"--would you walk away and go back to the first mechanic who never got it right? Why is your health worth any less than your car?

Parting the Clouds - the Science of the Martial Arts

A Fighters Guide to the Physics of Punching and Kicking for Karate, Taekwondo, Kung Fu and the Mixed Martial Arts

Createspace Independent Pub This is a book that's long overdue: One that provides information that has never before been published, compiled or analyzed in a way that's designed to help fighters. This is a guide to the science of kicking and punching that can settle the debates about which techniques are the most effective and why. It will help a fighter to fight, an instructor to teach and martial artists to advance by working things out for themselves. There is no magic involved in the martial arts. The force and power that is displayed by an expert fighter is the consequence of rigorous training in the accurate application of physical laws. Understanding how to use these laws of physics to create massive impact forces will provide a personal insight into the practice of correct technique and form. This unique piece of work will act as a technical reference that provides the facts and figures that fighters seek, including records of the maximum force and speed achieved by some of the best present day warriors, helping to answer many of the most difficult questions in the martial arts.

Lost Lessons 2

CreateSpace LOST Lessons was written by Randy Johnson and David Rutledge. The book has been well received and is reaching varied individuals. Young adults who are dedicated followers of Jesus Christ are learning to see media, Hollywood and even the world from a Christian perspective, while those who aren't necessarily connecting with a church are seeing Jesus in a fresh way. Based on this success, the authors decided to write on Season 2 of LOST, but with a twist: they involved 56 high school juniors and seniors

The Jaguar Hunter

Bantam Fourteen of Lucius Shepard's most memorable stories are combined with a previously unanthologized novella, *Radiant Green Star*, to form a stunning sci-fi collection. In the Nebula Award-winning title story, a poor Honduran hunter is coerced into tracking the forbidden black jaguar of Barrio Carolina.
