Medical Anthropology

A Biocultural Approach

Oxford University Press, USA Intended as the primary text for introductory courses on medical anthropology, this book integrates human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival. Because students who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially), the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology. The authors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging, race/racism and health, mental health, and healers and healing.

Personal Essays on Fly Fishing and the Transformative Power of Nature

Savio Republic In this inspirational and humorous collection of essays, author John Dietsch sees his addiction to and passion for fishing as a parable that can help us shift from compulsive thinking to mindfulness and a closer connection to God. From creating fishing scenes on the set of *A River Runs Through It* in Montana, to directing fly fishing shows in New Zealand and from exploring deep canyons in California to guiding in Colorado, John shares his experiences and asks the question: what are we really fishing for? Through John's journeys across the globe, we discover that the same pursuit in fishing—of what is elusive but attainable—can be applied to our own spiritual journey. In the end, Dietsch uncovers his own truth under the rocks of a childhood river, recognizing the loss of both his brothers as the path of acceptance and faith that is graced by waters.

Star Wars Origami

36 Amazing Paper-folding Projects from a Galaxy Far, Far Away....

Workman Publishing Kids love origami—and what could be cooler than transforming a piece of paper into Boba Fett, Princess Leia, Yoda, or R2-D2? And not just any paper, but custom-designed paper illustrated with art from the movies. Star Wars® Origami marries the fun of paper folding with the obsession of Star Wars. Like The Joy of Origami and Origami on the Go, this book puts an original spin on an ancient art. And like Star Wars® Scanimation® and Star Wars® Fandex®, it's a fresh take on Star Wars mania. Chris Alexander is a master folder and founder of the popular website StarWarsOrigami.com, and here are 36 models, clearly explained, that range in difficulty from Youngling (easy) to Padawan (medium), Jedi Knight (difficult), and Jedi Master (tricky!). A front section introduces origami definitions and basic folds. Bound in the back is the book's unique folding paper, two sheets for each figure. Illustrated with original art, it makes each creation—the essential lightsabers, the Death Star, and much more—true to the movies. Star Wars Origami includes a foreword by Tom Angleberger, author of the New York Times bestsellers The Strange Case of Origami Yoda and Darth Paper Strikes Back, and is scheduled to be published at the same time as Angleberger's upcoming book, The Secret of the Fortune Wookiee.

Read Us or Die

Black Bed Sheet Books The first official publisher's anthology featuring the exemplary talents of the authors of BLACK BED SHEET BOOKS! "Black Bed Sheet is not only a publisher of fantastically creative horror books but knows the meaning of heart and integrity....Grabowsky has taken BBS to heights that few could have imagined with his drive, determination and talent, along with the talent in his stable. If you haven't read anything from BBS, it's past time you did but it's never too late!" --- Gene Tipton, A SHOT IN THE DARK COMICS "I had this idea for an anthology. A crazy, outside the box thought that I hoped would at least ignite some interest. Well, it not only ignited, the damn thing drenched the entire office at Black Bed Sheet Books and its publisher Nicholas Grabowsky in a

orange and red hue of excitement. This has now become a solid joint effort spanning the many talented authors of Black Bed Sheet Books, highlighting the core value of writing: character depth. When Nick gave me the green light, I began to construct this list of talented writers. Some are veterans of the writing landscape [such as myself], others are brand new and cutting their jagged incisors deep into the skin of the publishing world. My only requirement for the authors became the simple task of all, write a story that has deep characters and emotion. A story evolves only so far as the characters propel it. I wanted the characters stripped down to their skeletons. Heroes, villains, somewhere in the middle? Bring them through the emotional grinder, chew them up, spit them out, where will it take the reader? Or, what about a few stories with different spins on such figures as Dracula, Adolph Hitler, the Devil, and Snow White. A few of these stories are dark in nature, or splashed with a form of comic ingenuity. Others are entrenched in history with a different spin that left me squirming in my seat. These authors are bright, fresh, talented, comedic, compassionate, and downright scary when they want to be. So sit back, turn off the lights, and read the book. Or die. I wouldn't want that to happen to you, but then again once you step inside our world, anything can happen. Close your eyes. Take a breath. The sounds you hear are real. There is no turning back. Keep reading. Or die." --from Introduction by Jason Gehlert --Featuring the talents of— Fred Wiehe - Cinsearae Santiago - Brandon Ford Jessica Lynne Gardner - Lincoln Crisler - Jason Gehlert - William Cook - Reyna Young - Tom Sawyer - K.K. - Rey Otis - Shannon Lee - B.L. The Book of L

Springer Science & Business Media This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L. Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who

could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

Odes

Knopf Following the Pulitzer prize-winning collection Stag's Leap, Sharon Olds gives us a stunning book of odes. Opening with the powerful and tender "Ode to the Hymen," Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, friend, and poet of conscience that will be familiar from earlier collections, each episode and memory burnished by the wisdom and grace and humor of looking back. In such poems as "Ode to My Sister," "Ode of Broken Loyalty," "Ode to My Whiteness," "Blow Job Ode," and "Ode to the Last Thirty-Eight Trees in New York City Visible from This Window," Olds treats us to an intimate examination that, like all her work, is universal, by turns searing and charming in its honesty. From the bodily joys and sorrows of childhood to the deaths of those dearest to us, Olds shapes the world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

The National Politics of EU Enlargement in the Western Balkans

Routledge The National Politics of EU Enlargement in the Western Balkans examines the way in which a number of European Union member states, including Germany and France, formulate their policies towards enlargement in the Western Balkans. The six countries of the Western Balkans – Albania, Bosnia and Herzegovina, Kosovo, Montenegro, North Macedonia and Serbia – are on course to become the next members of the European Union. While there has been a lot of work on the ways in which these countries are preparing for accession, and how the EU as a whole approaches the question of expansion, very little attention has been paid to how individual EU member states regard enlargement into a region that presents a number of serious challenges, including the legacies of the conflicts of the 1990s, economic underdevelopment and poor governance. Focusing on key states, such as Germany, France and Italy, the neighbouring countries of Central and South East Europe, and Britain, once a leading advocate of enlargement that is now in the process of leaving the European Union, this volume casts important new empirical and conceptual light on the diverse motivations that underpin member state attitudes towards EU enlargement. The National Politics of EU Enlargement in the

Western Balkans will be of great interest to scholars of the European Union, European politics, and the politics of the Western Balkans. The chapters were originally published as a special issue of Southeast European and Black Sea Studies.

The Bologna Process and Its Global Strategy

Motivations and External Responses

This book critically reflects on the international function of the Bologna Process by exploring motivations and interests behind its 'global strategy' as well as how the reforms have been perceived and applied beyond Europe. Since its initiation in 1999, the Bologna Process has evolved into an important example of regional higher education policy coordination. Now with 48 signatory states both within and outside the European Union, the Bologna reforms have pushed forward an ambitious agenda for a European Higher Education Area (EHEA), and the EU specifically as it aims to consolidate its knowledge-economy. Alongside its regional focus, the Bologna Process has also promoted an international reach through its 'global strategy'. Through this externalisation, the Bologna Process has become a point of reference for higher education internationalisation worldwide. Featuring examples of Bologna's 'reach' from Oceania to North America and in between, the book offers a timely contribution to the understanding of the reform's global influence. As a whole the contributions offer important insights to the understanding and conceptualisation of the EU's global influence, comparative regionalism and global higher education development more broadly. This book was originally published as a special issue of the European Journal of Higher Education.

predominant historical, scientific, and religious beliefs of the time. Readers will find answers to the following end-of-times questions: ?Did the Mayans really say the world will end in December 2012? ?How have the signs in the New Testament Book of Revelations been interpreted over the years? ?How did ancient Egyptians, Norse, and Chinese think the world would end? ?When did Nostradamus predict that the last days would come? ?Does the I Ching reference 2012? ?Why didn't the world end in Y2K? ?Are meteors, global warming, super-volcanoes, and the threat of nuclear war signs that the end is near?
