Making Meaning in English

Exploring the Role of Knowledge in the English Curriculum

Routledge What is English as a school subject for? What does knowledge look like in English and what should be taught? *Making Meaning in English* examines the broader purpose and reasons for teaching English and explores what knowledge looks like in a subject concerned with judgement, interpretation and value. David Didau argues that the content of English is best explored through distinct disciplinary lenses - metaphor, story, argument, pattern, grammar and context - and considers the knowledge that needs to be explicitly taught so students can recognise, transfer, build and extend their knowledge of English. He discusses the principles and tools we can use to make decisions about what to teach and offers a curriculum framework that draws these strands together to allow students to make sense of the knowledge they encounter. If students are going to enjoy English as a subject and do well in it, they not only need to be knowledgeable, but understand how to use their knowledge to create meaning. This insightful text offers a practical way for teachers to construct a curriculum in which the mastery of English can be planned, taught and assessed.

Understanding People in Context

The Ecological Perspective in Counseling

John Wiley & Sons This exceptional book emphasizes uniquely designed interventions for individual counseling, group work, and community counseling that consider clients as individuals within the contexts of families, cultural groups, workplaces, and communities. Part I describes the theoretical research base and major tenets of the ecological perspective and its applications to counseling practice. In Part II, experts who have used the ecological perspective in their work discuss its usefulness in various applications, including counseling diverse clients with specific life challenges; assessment, diagnosis, and treatment planning; and in schools, substance abuse programs, faith-based communities, and counselor training programs. *Requests for digital versions from the ACA can be found on

Theorizing Pedagogical Interaction Insights from Conversation Analysis

Routledge *Pedagogical interaction can be observed through many different landscapes, such as the graduate seminar, the writing skills center, the after-school literacy program, adult ESL classrooms, and post-observation conferences. By viewing these settings through the lens of conversation analysis, this volume lays the groundwork for three principles of pedagogical interaction: competence, complexity, and contingency. The author explores these principles and how they inform what makes a good teacher, how people learn, and why certain pedagogical encounters are more enlightening than others. Drawn from the author's original research in various pedagogical settings, this volume collects empirical insights from conversation analysis and contributes to theory building. Theorizing Pedagogical Interaction will appeal to students and scholars in applied linguistics, educational linguistics, and communication studies who are interested in the discourse of teaching and learning.*

Language, Dementia and Meaning Making

Navigating Challenges of Cognition and Face in Everyday Life

Springer *This book investigates the ways in which context shapes how cognitive challenges and strengths are navigated and how these actions impact the self-esteem of individuals with dementia and their conversational partners. The author examines both the language used and face maintenance in everyday social interaction through the lens of epistemic discourse analysis. In doing so, this work reveals how changes in cognition may impact the faces of these individuals, leading some to feel ashamed, anxious, or angry, others to feel patronized, infantilized, or overly dependent, and still others to feel threatened in both ways. It further examines how discursive choices made by healthy interactional partners can minimize or exacerbate these feelings. This path-breaking work will provide important insights for students and scholars of sociolinguistics, applied linguistics, medical anthropology, and health communication.*

Ready to Teach: Macbeth

A compendium of subject knowledge, resources and pedagogy

John Catt Educational *What is the best approach for helping students to understand higher level concepts? How can specific subject knowledge be implemented in lessons? Ready to Teach: Macbeth brings together the deep subject knowledge, resources and classroom strategies needed to teach Shakespeare's tragic play, as well as the pedagogical theory behind why these ideas work, helping teachers to deliver a knowledge-rich curriculum with impact. Each chapter contains lesson-by-lesson essays and commentaries that enhance subject knowledge on key areas of the text alongside fully resourced lessons reflecting current and dynamic best practice. The book also offers an introduction to the key pedagogical concepts which underpin the lessons and why they are proven to help students develop powerful knowledge and key skills. Whether you are new to teaching or looking for different ways into the text, Ready to Teach: Macbeth is the perfect companion to the study of 'the Scottish play'.*

Education Exposed 2

In pursuit of the halcyon dream

John Catt Educational Education Exposed 2 follows on from Sam Strickland's first book, Education Exposed. The book is a pacy, punchy and forthright critique of how to drive the curriculum, behaviour and teaching within a school and the pivotal role that leadership plays in pursuing the halcyon dream. The book is neatly laid out, with each chapter identifying common curricular misconceptions, posing lots of key questions to consider and offering multiple practical ideas that you can take away. Every chapter ends with five key takeaway points for you to carefully consider. The book neatly interplays theory, research, Sam's expertise and experience coupled with a practical and real world approach. The first section of the book champions the importance of the curriculum and knowledge. The second section examines behaviour and how this can be driven by senior leaders coupled routine driven approach to learning. This section also takes you through a series of curriculum tools and teaching approaches that will assist you in thinking about how to implement and drive the curriculum. The third section of the book examines leadership; how leaders can champion the teacher as the expert and how a school culture can be supported and monitored carefully. Education Exposed 2 is relevant for anyone working in a school, irrespective of their position or role. It is designed to be an accessible, versatile and quick read. Equally, it can be used as a dip-in and dip-out guide. Multiple practical approaches and strategies are offered as key take-away points.

Transforming Teaching and Learning with Active and Dramatic Approaches

Engaging Students Across the Curriculum

Routledge A CHOICE Outstanding Academic Title 2014! How can teachers transform classroom teaching and learning by making pedagogy more socially and culturally responsive, more relevant to students' lives, and more collaborative? How can they engage disaffected students in learning and at the same time promote deep understanding through high-quality teaching that goes beyond test preparation? This text for prospective and practicing teachers introduces engaging, innovative pedagogy for putting active and dramatic approaches to learning and teaching into action. Written in an accessible, conversational, and refreshingly honest style by a teacher and professor with over 30 years' experience, it features real examples of preschool, elementary, middle, and high school teachers working in actual classrooms in diverse settings. Their tales explore not only how, but also why, they have changed the way they teach. Photographs and stories of their classroom practice, along with summarizing charts of principles and strategies, both illuminate the critical, cross-curricular, and inquiry-based conceptual framework Edmiston develops and provide rich examples and straightforward guidelines that can support readers as they experiment with using active and dramatic approaches to dialogue, inquiry, building community, planning for exploration, and authentic assessment in their own classrooms.

Producing and Managing Restricted Activities

Avoidance and withholding in institutional interaction

John Benjamins Publishing Company This book examines the kinds of talk that service providers working in various settings (e.g. doctors, healthcare providers, helpline call takers, tourist officers) seek to avoid in their interactions with clients, when such talk may be expected or due in some way. The studies utilise Conversation Analysis to demonstrate how participants use the interactional practices of avoidance and withholding to construct specific activities as restricted. The various authors also show how, in contributing to the restricted character of certain activities, withholding and avoidance in turn contribute to both the accomplishment of the particular work of the specific organisations and to the construction of the specific institutional identities of the professionals. Overall, the collection offers an authoritative account of restriction and avoidance in workplace interaction.

Human Inquiry in Action

Developments in New Paradigm Research

SAGE An important practical sourcebook for new ways of undertaking research, this volume presents both an up-to-date assessment of the state of theoretical and methodological debates in collaborative human research and a summary of projects undertaken using collaborative methodologies. It addresses some of the difficulties involved with the collaborative approach: when the researcher is no longer separated from the researched, questions about how to collaborate and how to manage power relations become important. When people are inquiring into their personal experience, questions of subjectivity and validity are raised. These methodological problems are addressed in the first half of the book, while the remainder resolves them in research contexts.

Ambivalent Macbeth

Sydney University Press Macbeth is often read in a singular fashion: either as a cautionary morality tale warning against ambition, or as a psychological study of evil. In *Ambivalent Macbeth*, renowned Shakespeare scholar R. S. White argues that these differing readings result from a profoundly ambivalent play, and that this quality is a clue to its greatness. White explores how radical ambivalence permeates the atmosphere, imagery, themes and characterisation of 'the Scottish play'. He considers Shakespeare's historical context and source material, and examines key cinematic, theatrical and other adaptations of the play. Throughout, he argues that an open-minded acceptance of ambivalence can inspire a multitude of readings, and that this complexity helps to explain the play's intriguing longevity.

The Heart of His Mystery

Shakespeare and the Catholic Faith in England Under Elizabeth and James

iUniverse Shakespeare has traditionally been viewed as Queen Elizabeth's 'poet laureate', and as the official mouthpiece of the Elizabethan age. But the Elizabethan world was torn apart by the religious divisions initiated by the Reformation, and vitiated by the government's merciless persecution of Catholics. As it was the victors who wrote the history, the English Reformation has been portrayed as a peaceful transition enjoying majority support, when in fact it was nothing of the kind. Elizabeth's regime was a police state which sanctioned the use of torture, where Catholic priests and those who harboured them were liable to summary and bloody execution. The persecution of Catholics was continued by James I, evoking the violent response of the Gunpowder Plot. *The Heart of His Mystery* examines Shakespeare's life and work against this background. There is strong biographical evidence that he was himself a Catholic, and a detailed survey of his plays and poems shows that his imagination was intimately bound up with his religious faith. When we realise that his human compassion grew from his membership in a persecuted community, we can glimpse the mystery he has encrypted in his works and we come closer to understanding the hidden heart of Shakespeare the man.

How Smart Parents Get Their Kids the Education They Deserve

Henry Holt and Company Award-winning education journalist Peg Tyre mines up-to-the-minute research to equip parents with the tools and knowledge necessary to get their children the best education possible. We all know that the quality of education served up to our children in U.S. schools ranges from outstanding to shockingly inadequate. How can parents tell the difference? And how do they make sure their kids get what's best? Even the most involved and informed parents can feel overwhelmed and confused when making important decisions about their child's education. And the scary truth is that evaluating a school based on test scores and college admissions data is like selecting a car based on the color of its paint. Synthesizing cutting-edge research and firsthand reporting, Peg Tyre offers parents far smarter and more sophisticated ways to assess a classroom and decide if the school and the teacher have the right stuff. Passionate and persuasive, *The Good School* empowers parents to

make sense of headlines; constructively engage teachers, administrators, and school boards; and figure out the best option for their child—be that a local public school, a magnet program, a charter school, homeschooling, parochial, or private.

Text and Theatre

Museum Tusulanum Press This volume contains 11 new papers on Shakespeare written by members of the Department of English at the University of Copenhagen and other Danish universities plus a few international Shakespeare scholars. They fit into an overall theme and are included because they are about Shakespeare -- as text, as theatre, in his age, and through the ages. Beside showing many different ways of thinking and writing about Shakespeare, the eleven articles fall into a pattern if read together in the order they are printed. The papers are varied and wide-ranging: contemporary contexts, tradition, language and style, performance, translation and modern appropriation.
