New Horizons in Evolution

Academic Press New Horizons in Evolution is a compendium of the latest research, analyses, and theories of evolutionary biology. Chapters are collected from the international symposium held by the Board of Governors of the University of Haifa to honor Dr. Eviatar Nevo, founder and director of the Institute of Evolution. This book includes material written by top global scientists. Such detailed summaries and recent advances include topics like genomics, epigenetics, evolutionary theory, and the evolution of cancer. This book analyzes evolutionary biology of animals, such as lizards and subterranean mammals. It also discusses agricultural evolution, specifically the vital wheat crop in various climates and locations. Each chapter contributes the most up-to-date knowledge of evolution's role in speciation, adaptation, and regulation. New Horizons in Evolution is a valuable resource for researchers involved in evolution, evolutionary biology, and evolutionary theory. Advanced undergraduate and graduate students in evolutionary biology courses will also find this useful due to the high expertise level and latest knowledge available through this resource. Examines the evolution of species in extreme conditions Discusses the role of evolution in medicine and cancer research Features the latest data and advances in evolution theory

Arts & Humanities Citation Index

A multidisciplinary index covering the journal literature of the arts and humanities. It fully covers 1,144 of the world's leading arts and humanities journals, and it indexes individually selected, relevant items from over 6,800 major science and social science journals.

Congregational Hermeneutics

How Do We Read?

Routledge Despite many churches claiming that the Bible is highly significant for their doctrine and practice, questions about how we read the Bible are rarely made explicit. Based on ethnographic research in English churches, *Congregational Hermeneutics* explores this dissonance and moves beyond descriptions to propose ways of enriching hermeneutical practices in congregations. Characterised as hermeneutical apprenticeship, this is not just a matter of learning certain skills, but of cultivating hermeneutical virtues such as faithfulness, community, humility, confidence and courage. These virtues are given substance through looking at four broad themes that emerge from the analysis of congregational hermeneutics - tradition, practices, epistemology and mediation. Concluding with what hermeneutical apprenticeship might look like in practice, this book is constructively theological about what churches actually do with the Bible, and will be of interest to scholars, students and practitioners.

Famous Canadians

Rainbow Horizons Publishing Canada is a vast country filled with many different people. There are many Canadians that are famous for their special talents and skills. Some Canadians are well known for their ability to entertain others, their ability to play different sports or for their artistic ability. Other Canadians have made important scientific discoveries or have invented items that are useful to many people. Over the history of Canada, there have also been a number of Prime Ministers whose accomplishments made them famous. Our resource studies many of these great Canadian people. Students practice using different reading, writing, research, and language arts skills as they complete the activities in our resource. This Canada lesson provides a teacher and student section with reading passages, activities, word search, crossword, and answer key to create a well-rounded lesson plan.
