HANDBOOK OF RESEARCH ON ASSESSMENT LITERACY AND TEACHER-MADE TESTING IN THE LANGUAGE CLASSROOM

IGI Global The evaluation of student performance and knowledge is a critical element of an educator's job as well as an essential step in the learning process for students. The quality and effectiveness of the evaluations given by educators are impacted by their ability to create and use reliable and valuable evaluations to facilitate and communicate student learning. The Handbook of Research on Assessment Literacy and Teacher-Made Testing in the Language Classroom is an essential reference source that discusses effective language assessment and educator roles in evaluation design. Featuring research on topics such as course learning outcomes, learning analytics, and teacher collaboration, this book is ideally designed for educators, administrative officials, linguists, academicians, researchers, and education students seeking coverage on an educator's role in evaluation design and analyses of evaluation methods and outcomes.

FINISH LINE NEW YORK ELLS

BILINGUAL COMMON CORE GRADE 2

The Finish Line New York ELLs: Bilingual Common Core workbook is essential for NYSESLAT test takers. Practice lessons meet today's Common Core Learning Standards (CCLS) and the New Language Arts Progressions, and prepare students for the format and item types on the 2016 NYSESLAT. Lessons address the four tested language domains of Listening, Reading, Writing, and Speaking. Each lesson is created around a central theme that ties to a content area in the classroom. Like the test, the book targets the linguistic demands of grade-level Common Core instruction using Targets of Measurement (ToMs). Academic language is heavily emphasized. Passage types include informational and literary texts that align with the text complexity of the CCLS. Listening, Reading, and Writing are integrated, and Speaking is a dedicated session.

TRANSLANGUAGING AND TRANSFORMATIVE TEACHING FOR EMERGENT BILINGUAL STUDENTS

LESSONS FROM THE CUNY-NYSIEB PROJECT

Routledge A critical and accessible text, this book provides a foundation for translanguaging theory and practice with educating emergent bilingual students. The product of the internationally renowned and trailblazing City University of New York-New York State Initiative on Emergent Bilinguals (CUNY-NYSIEB), this book draws on a common vision of translanguaging to present different perspectives of its practice and outcomes in real schools. It tells the story of the collaborative project's positive impact on instruction and assessment in different contexts, and explores the potential for transformation in teacher education. Acknowledging oppressive traditions and obstacles facing language minoritized students, this book provides a pathway for combatting racism, monolingualism, classism and colonialism in the classroom and offers narratives, strategies and pedagogical practices to liberate and engage emergent bilingual students. This book is an essential text for all teacher educators, researchers, scholars, and students in TESOL and bilingual education, as well as educators working with language minoritized students.

ALLOCATING FEDERAL FUNDS FOR STATE PROGRAMS FOR ENGLISH LANGUAGE LEARNERS

National Academies Press As the United States continues to be a nation of immigrants and their children, the nation's school systems face increased enrollments of students whose primary language is not English. With the 2001 reauthorization of the Elementary and Secondary Education Act (ESEA) in the No Child Left Behind Act (NCLB), the allocation of federal funds for programs to assist these students to be proficient in English became formula-based: 80 percent on the basis of the population of children with limited English proficiency¹ and 20 percent on the basis of the population of recently immigrated children and youth. Title III of NCLB directs the U.S. Department of Education to allocate funds on the basis of the more accurate of two allowable data sources: the number of students reported to the federal government by each state education agency or data from the American Community Survey (ACS). The department determined that the ACS estimates are more accurate, and since 2005, those data have been basis for the federal distribution of Title III funds. Subsequently, analyses of the two data sources have raised concerns about that decision, especially because the two allowable data sources would allocate quite different amounts to the states. In addition, while shortcomings were noted in the data provided by the states, the ACS estimates were shown to fluctuate between years, causing concern among the states about the unpredictability and unevenness of program funding. In this context, the U.S. Department of Education commissioned the National Research Council to address the accuracy of the estimates from the two data sources and the factors that influence the estimates. The resulting book also considers means of increasing the accuracy of the data sources or alternative data sources that could be used for allocation purposes.

TEACHING ENGLISH LANGUAGE LEARNERS IN SECONDARY SUBJECT MATTER CLASSES

2ND EDITION

IAP This book is for secondary subject matter teachers and administrators who work with English language learners (ELLs) in subject matter classes. It is also for college professors who prepare pre-service teachers to work with those students. The book brings together insights from linguistic, socio-cultural, educational, cognitive, developmental perspectives of what it means for ELLs to learn both English and subject matter knowledge in English as a second language. It delineates unique challenges that ELLs experience, offers ELLs' learning stories, and suggests concrete strategies with classroom teaching examples across academic disciplines. The 2nd edition broadens the scope of the 1st edition in several aspects. Specifically, it includes two chapters about secondary ELLs' previous educational experiences in their home countries, a chapter on subject matter lesson planning with ELLs in mind with teacher collaborative strategies, and more principle-based and field-tested effective instructional and assessment strategies for working with ELLs.

STUDENTS WITH INTERRUPTED FORMAL EDUCATION

BRIDGING WHERE THEY ARE AND WHAT THEY NEED

Corwin Press New hope for our most vulnerable English learners "One of the guiding principles of effective English language teaching is for educators to know their students. And that in a nutshell captures the value of this book. . . . The compassion that Custodio and O'Loughlin feel for our SIFE students, the commitment they have to educating them well, and the comprehension they have of the assets these learners bring to the classroom are evident in the writing, tools, and vignettes they share." -Deborah J. Short Under the best of circumstances, the academic demands of today's classrooms can be daunting to our English learners. But for the tens of thousands of newly arrived students with interrupted formal education, even the social challenges can be outright overwhelming. Rely on this all-in-one guide from Brenda Custodio and Judith O'Loughlin for expert insight on how to build the skills these students need for success in school and beyond. Inside you'll find Essential background on factors leading to interrupted education Specific focus on refugee children and Latino immigrants Guidance on building internal resilience for long-term social and emotional health Recommendations for creating supportive environments at the classroom, school, and district level About one thing, Brenda and Judith are absolutely convinced: our SIFE students can learn and make progress, often at a remarkable speed. But it's up to us, their educators, to provide the time, attention, and a specific focus. Consider this book your first step forward.

MULTILINGUAL LITERACY

This book investigates multilingual literacy practices, explores the technology applied in different educational frameworks, the centrality of multilingual literacy in non-formal, informal and formal educational contexts, as well as its presence in everyday life. Thematically clustered in four parts, the chapters present an overview of theory related to multilingual literacy, address the methodological challenges of research in the area, describe and evaluate projects set up to foster multilingual literacy in a variety of educational contexts, analyze the literacy practices of multilinguals and their contribution to language and literacy acquisition. This volume aims to initiate a change in paradigms, shifting from structured and conservative problematizations to inclusive and diverse conceptualizations and practices. To that end, the book showcases explorations of different methodologies and needs in formal and non-formal educational systems; and it serves as a springboard for developing multivocal participatory spaces with opportunities for learning and identity-building for all multilinguals, across different settings, languages, ages and contexts.

NYS FINISH LINE ALGEBRA I

Help students raise their performance on the Regents Algebra I (Common Core) exam with NYS Finish Line Algebra I. Nearly 300 pages of practice can prepare them with CCLS instruction that follows the curriculum sequence outlined by New York State. Content and organization are developed especially for New York. Topics that are often stumbling blocks for students are covered in detail, starting with the fundamentals. The progression of skills goes from recognizing and understanding forms and processes, to solving equations and inequalities, to modeling equations and graphs to represent real-life situations. Rigorous multiple-choice and constructed-response items give students test-like practice.

THE ASSESSMENT OF EMERGENT BILINGUALS

SUPPORTING ENGLISH LANGUAGE LEARNERS

Multilingual Matters This textbook is a comprehensive introduction to the assessment of students in K-12 schools who use two or more languages in their daily life: English Language Learners (ELLs), or Emergent Bilinguals. The book includes a thorough examination of the policy, history and assessment/measurement issues that educators should understand in order to best advocate for their students. The author presents a decision-making framework called PUMI (Purpose, Use, Method, Instrument) that practitioners can use to better inform assessment decisions for bilingual children. The book will be an invaluable resource in teacher preparation programs, but will also help policy-makers and educators make better decisions to support their students.

ASSESSING ENGLISH LANGUAGE PROFICIENCY IN U.S. K-12 SCHOOLS

Routledge Assessing English Language Proficiency in U.S. K-12 Schools offers comprehensive background information about the generation of standards-based, English language proficiency (ELP) assessments used in U.S. K-12 school settings. The chapters in this book address a variety of key issues involved in the development and use of those assessments: defining an ELP construct driven by new academic content and ELP standards, using technology for K-12 ELP assessments, addressing the needs of various English learner (EL) students taking the assessments, connecting assessment with teaching and learning, and substantiating validity claims. Each chapter also contains suggestions for future research that will contribute to the next generation of K-12 ELP assessments and improve policies and practices in the use of the assessments. This book is intended to be a useful resource for researchers, graduate students, test developers, practitioners, and policymakers who are interested in learning more about large-scale, standards-based ELP assessments for K-12 EL students.

THE LANGUAGE DEMANDS OF SCHOOL

PUTTING ACADEMIC ENGLISH TO THE TEST

Yale University Press The Language Demands of School is an edited volume describing an extensive empirical base for academic English testing, instruction and professional development. The chapters comprise empirical research by Bailey and colleagues at the National Center for Research on Evaluation, Standards, Student Testing (CRESST) at UCLA, and invited contributions by practitioners in the fields of language policy, testing and instruction. The central focus of the chapters is the research conducted by CRESST over the last two years in an attempt to document the academic English language demands placed on school-age learners of English. The three additional chapters give the perspectives of a policy-maker at the state level, test developers, and practitioners. The Language Demands of School fills a gap in the current literature by addressing the kind(s) of English required of K-12 English Learner students from an evidence-based perspective. This is timely given the broader context of the No Child Left Behind Act of 2001, which has prompted school systems to identify English language proficiency tests to meet the federal mandate. One of the problems that has surfaced in the search for English language tests for K-12 English Learner students is the inadequacy of existing research on the development of the academic English language skills that all students—both English Learner and native English-speaking—need to be successful in the school setting. The Language Demands of School is devoted to exploring this topic and to presenting research that illuminates both the questions and the answers.

THE FRAMEWORK FOR TEACHING EVALUATION INSTRUMENT, 2013 EDITION

THE NEWEST RUBRIC ENHANCING THE LINKS TO THE COMMON CORE STATE STANDARDS, WITH CLARITY OF LANGUAGE FOR EASE OF USE AND SCORING

The framework for teaching document is an evolving instrument, but the core concepts and architecture (domains, components, and elements) have remained the same. Major concepts of the Common Core State Standards are included. For example, deep conceptual understanding, the importance of student intellectual engagement, and the precise use of language have always been at the foundation of the Framework for Teaching, but are more clearly articulated in this edition. The language has been tightened to increase ease of use and accuracy in assessment. Many of the enhancements to the Framework are located in the possible examples, rather than in the rubric language or critical attributes for each level of performance.

Routledge Through a critical discussion of the issues surrounding the design, sharing and reuse of learning activities, the second edition of Rethinking Pedagogy for a Digital Age examines a wide range of perspectives on effectively designing and delivering learning activities to ensure that future development is pedagogically sound, learner-focused, and accessible. This powerful book: • examines the reality of design in practice • shares tools and resources to guide practice • analyses design within complex systems • discusses the influence of open resources on design • includes design principles for mobile learning • explores practitioner development in course teams • presents scenarios for design for learning in an uncertain future Illustrated by case studies from across disciplines and supported by

a helpful appendix of tools and resources for researchers, practitioners and teachers, the second edition of *Rethinking Pedagogy for a Digital Age* is an essential guide to designing for 21st Century learning.

MISSION POSSIBLE

HOW THE SECRETS OF THE SUCCESS ACADEMIES CAN WORK IN ANY SCHOOL

John Wiley & Sons Strategies for making the schools we need that work for all kids Eva Moskowitz (the founder and CEO of the Success Charter Network in Harlem) and Arin Lavinia offer practical, classroom-tested ideas for dramatically improving teaching and learning. Moskowitz and Lavinia reveal how a charter school in the middle of Harlem, enrolling neighborhood children selected at random, emerged as one of the top schools in New York City and State within three years. The results of the Harlem school were on a par with public schools for gifted students and elite private schools. Describes what can be accomplished when students and adults all work to focus on constant learning and performance improvement; DVD clips can be accessed using a special link included in the book. The Success Academies have been featured in two popular and widely distributed documentaries, *Waiting for Superman* and *The Lottery Details the Success Academies' THINK Literacy* curriculum, which produces dramatic results in student's reading and writing skills In addition to providing strategies and lessons for school leaders and teachers, *Secrets of the Success Academies* also serves as a guide for parents, policymakers, and practitioners who are passionate about closing the academic achievement gap.

MEETING THE NEEDS OF STUDENTS WITH LIMITED OR INTERRUPTED SCHOOLING

A GUIDE FOR EDUCATORS

Today's public schools are brimming with students who are not only new to English but who also have no schooling or a large break in their schooling. These students create unique challenges for teachers and administrators. This handbook is a welcome new resource for secondary teachers and administrators working in areas with burgeoning immigrant populations, as well as ESL instructors and researchers. The book addresses some of the many issues facing the subpopulation of English language learners who have limited or interrupted formal schooling, helping dedicated teachers and administrators to meet this subpopulation's highly specific literacy development and content-area knowledge needs. *Meeting the Needs of Students with Limited or Interrupted Schooling* is grounded in research but goes beyond it to offer practical guidance on fostering the success of students from limited or interrupted schooling backgrounds by providing student case studies, model programs and classes, and helpful teaching techniques and tips.

CULTURALLY RESPONSIVE TEACHING FOR MULTILINGUAL LEARNERS

TOOLS FOR EQUITY

Corwin Press What will you do to promote multilingual learners' equity? Our nation's moment of reckoning with the deficit view of multilingual learners has arrived. The COVID-19 pandemic has further exposed and exacerbated long-standing inequities that stand in the way of MLs' access to effective instruction. Recent events have also caused us to reflect on our place as educators within the intersection of race and language. In this innovative book, Sydney Snyder and Diane Staehr Fenner share practical, replicable ways you can draw from students' strengths and promote multilingual learners' success within and beyond your own classroom walls. In this book you'll find • Practical and printable, research-based tools that guide you on how to implement culturally responsive teaching in your context • Case studies and reflection exercises to help identify implicit bias in your work and mitigate deficit-based thinking • Authentic classroom video clips in each chapter to show you what culturally responsive teaching actually looks like in practice • Hand-drawn sketch note graphics that spotlight key concepts, reinforce central themes, and engage you with eye-catching and memorable illustrations There is no time like the present for you to reflect on your role in culturally responsive teaching and use new tools to build an even stronger school community that is inclusive of MLs. No matter your role or where you are in your journey, you can confront injustice by taking action steps to develop a climate in which all students' backgrounds, experiences, and cultures are honored and educators, families, and communities work collaboratively to help MLs thrive. We owe it to our students. On-demand book study-Available now! Authors, Snyder and Staehr Fenner have created an on-demand LMS book study for readers of *Culturally Responsive Teaching for Multilingual Learners: Tools for Equity* available now from their company SupportEd. MEETING THE PSYCHOEDUCATIONAL NEEDS OF MINORITY STUDENTS

EVIDENCE-BASED GUIDELINES FOR SCHOOL PSYCHOLOGISTS AND OTHER SCHOOL PERSONNEL

John Wiley & Sons "Dr. Frisby focuses a bright light on issues that often remain obscured in a fog of polemics, deeply held convictions, and genuine concern for the plight of minority students. *Meeting the Psychoeducational Needs of Minority Students* cuts through this fog with intense, sharp, clear thinking and data-driven conclusions." —Jeffrey P. Braden, PhD, Professor of Psychology and Dean of the College of Humanities and Social Sciences, North Carolina State University "Going beyond superficial 'feel good' or 'feel bad' ideologists to probe what really makes a difference in meeting the needs of often underserved populations, Craig Frisby provides a comprehensive, rigorous, well-written, and entertaining (honest!) work that addresses the intersection of race, ethnicity, and education." —Betty Henry, PhD, School Psychologist, California School for the Blind "Dr. Frisby makes a perceptive and incisive assessment of much of the multicultural ideology currently propagated in professional psychology and education and directly confronts some of the major issues surrounding multiculturalism. Unlike many other critiques that have been proffered over the last few decades, however, *Meeting the Psychoeducational Needs of Minority Students* also provides many concrete solutions for how to begin changing the current milieu." —A. Alexander Beaujean, PhD, Associate Professor, Baylor University A practical, research-based guide to facilitating positive educational outcomes for racial, ethnic, and language minority students This timely book is written from the perspective of contemporary school psychology for a variety of school personnel, including school psychologists, teachers, guidance counselors, and administrators, with coverage of: The problem of quack multiculturalism Home and family Context for school learning General cognitive ability, learning, and instruction Testing and assessment School discipline and behavior management Crime, delinquency, and gangs School district resources

CO-TEACHING FOR ENGLISH LEARNERS

EVIDENCE-BASED PRACTICES AND RESEARCH-INFORMED OUTCOMES

IAP This edited volume examines co-teaching and integrated service delivery for English learners (ELs). Through research and documentary accounts, it explores the collaborative instructional cycle—co-planning, co-instruction, co-assessment, and reflection practices—of co-taught programs for ELs. This volume presents current, classroom-based, practitioner-oriented research related to all aspects of co-taught programs for ELs and offers authentic evidence and practical recommendations that yield positive outcomes for this student population.

TEACHING TO STRENGTHS

SUPPORTING STUDENTS LIVING WITH TRAUMA, VIOLENCE, AND CHRONIC STRESS

ASCD Half the students in U.S. schools are experiencing or have experienced trauma, violence, or chronic stress. Much has been written about these students from a therapeutic perspective, especially regarding how to provide them with adequate counseling supports and services. Conversely, little has been written about teaching this population and doing so from a strengths-based perspective. Using real-world examples as well as research-based principles, this book shows how to identify inherent assets that students bring to the classroom. Connect to students' experiences through instructional planning and delivery. Foster students' strengths through the use of predictable routines and structured paired and small-group learning experiences. Develop family and community partnerships. Experts Debbie Zacarian, Lourdes Alvarez-Ortiz, and Judie Haynes outline a comprehensive, collaborative approach to teaching that focuses on students' strengths and resiliency. Teaching to Strengths encourages educators to embrace teaching and schoolwide practices that support and enhance the academic and socio-emotional development of students living with trauma, violence, and chronic stress.

TRANSLANGUAGING WITH MULTILINGUAL STUDENTS

LEARNING FROM CLASSROOM MOMENTS

Routledge Looking closely at what happens when translanguaging is actively taken up to teach emergent bilingual students across different contexts, this book focuses on how it is already happening in classrooms as well as how it can be implemented as a pedagogical orientation. It extends theoretical understandings of the concept and highlights its promises and challenges. Using a Transformative Action Research design, six empirically grounded ethnographic case studies describe how translanguaging is used in lesson designs and in the spontaneous moves made by teachers and students during specific teaching moments. The cases shed light on two questions: How, when, and why is translanguaging taken up or resisted by students and teachers? What does its use mean for them? Although grounded in a U.S. context, and specifically in classrooms in New York State, Translanguaging with Multilingual Students links findings and theories to different global contexts to offer important lessons for educators worldwide.

BREAKING THE MOLD OF EDUCATION FOR CULTURALLY AND LINGUISTICALLY DIVERSE STUDENTS

R&L Education The narratives presented in *Breaking the Mold of Education for Culturally and Linguistically Diverse Students* are rooted in classrooms, districts, communities, teacher preparation programs from around the United States and many corners of the world. The unique initiatives portrayed here represent collaborative efforts by students, teachers, administrators, professors, parents, boards of education, and global citizens who believe in change and transformation for the betterment of education.

BILINGUALISM FOR ALL?

RACIOLINGUISTIC PERSPECTIVES ON DUAL LANGUAGE EDUCATION IN THE UNITED STATES

Multilingual Matters It is common for scholarly and mainstream discourses on dual language education in the US to frame these programs as inherently socially transformative and to see their proliferation in recent years as a natural means of developing more anti-racist spaces in public schools. In contrast, this book adopts a raciolinguistic perspective that points to the contradictory role that these programs play in both reproducing and challenging racial hierarchies. The book includes 11 chapters that adopt a range of methodological techniques (qualitative, quantitative and textual), disciplinary perspectives (linguistics, sociology and anthropology) and language foci (Spanish, Hebrew and Korean) to examine the ways that dual language education programs in the US often reinforce the racial inequities that they purport to challenge.

NEW YORK STATE COACH

INTERMEDIATE SCIENCE, GRADE 8

GET BETTER FASTER

A 90-DAY PLAN FOR COACHING NEW TEACHERS

John Wiley & Sons Effective and practical coaching strategies for new educators Many teachers are only observed one or two times per year on average—and, even among those who are observed, scarcely any are given feedback as to how they could improve. The bottom line is clear: teachers do not need to be evaluated so much as they need to be developed and coached. In *Get Better Faster: A 90-Day Plan for Coaching New Teachers*, Paul Bambrick-Santoyo shares instructive tools of how school leaders can effectively guide new teachers to success. Over the course of the book, we break down the most critical actions leaders and teachers must take to achieve exemplary results. Designed for coaches as well as beginning teachers, *Get Better Faster* is an integral coaching tool for any school leader eager to help their teachers succeed. It's the book's focus on what's practical and actionable that drives its effective approach to coaching. By practicing the concrete actions and micro-skills listed here, teachers will markedly improve their ability to lead a class, producing a steady chain reaction of future teaching success. Though focused heavily on the first 90 days of teacher development, it's possible to implement this work at any time. Junior and experienced teachers alike can benefit from the guidance of *Get Better Faster* and close existing instructional gaps. Packed with practical training tools, including agendas, presentation slides, a coach's guide, handouts, planning templates, and 35 video clips of real teachers at work, *Get Better Faster* will teach you: The core principles of coaching; Go Granular; Plan, Practice, Follow Up, Repeat; Make Feedback More Frequent Top action steps to launch a teacher's development in an easy-to-read scope and sequence guide It also walks you through the four phases of skill building: Phase 1 (Pre-Teaching): Dress Rehearsal Phase 2: Instant Immersion Phase 3: Getting into Gear Phase 4: The Power of Discourse Perfect for new educators and those who supervise them, *Get Better Faster* will also earn a place in the libraries of veteran teachers and school administrators seeking a one-stop coaching resource.

BEYOND CRISES

OVERCOMING LINGUISTIC AND CULTURAL INEQUITIES IN COMMUNITIES, SCHOOLS, AND CLASSROOMS

Corwin Press What are some lessons learned from the pandemic? We learned that, in times of crises, the humanitarian needs of students, families, and ourselves must be a top priority. We learned that forming effective partnerships with families and communities is essential to the health and well-being of our children. We were offered a blunt reminder that a system designed to serve the interests of a privileged few was destined to fail our historically underserved students, especially our millions of multilingual learners. Above all, we learned that the "normal" many of us have yearned for was never good enough—that we must envision a "better world," where we build on our multilingual students' unique assets and cultivate their inner brilliance. Only then will we deliver on their promise. It's this "better world," a world in which communities, schools, and classrooms work together as a "whole-child ecosystem," *Beyond Crises: Overcoming Linguistic and Cultural Inequities in Communities, Schools, and Classrooms* sets out to create. Taking a look from the outside in, Debbie Zacarian, Margarita Calderón, and Margo Gottlieb address three critical arenas: 1. Imagining Communities describes how to design and enact strengths-based family and community partnerships, including the critical importance of identifying, valuing, and acknowledging each member's assets and competencies, and the ways recent crises have amplified their struggles. 2. Imagining Schools takes an up-close look at policies, structures, and now irrelevant ways of schooling that call for change and how we might reconfigure professional development to ensure every teacher and administrator is dedicated to the well-being and success of our multilingual learners. 3. Imagining Classrooms demonstrates how to optimize learning opportunities—both virtual and face-to-face—so our diverse students grow cognitively, linguistically, and social-emotionally, and accentuate their talents in knowing and using multiple languages in linguistically and culturally sustainable environments. "Student and family, classroom, school, and local community are not silos unto themselves," Debbie, Margarita, and Margo insist. "They are part of a larger whole that is interrelated and interconnected and, even, interdependent on each other. By forming stronger alliances, we can realize the power of truly working, socializing, and flourishing together." *Beyond Crises* is the first critical step forward.
