### THE DEVELOPMENT OF ARMoured FORCES, THEIR TACTICS AND OPERATIONAL POTENTIAL

---

*Arms & Armour* This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

### **A QUESTION OF CHARACTER**

---

No issue is more hotly debated than how, or even if, a politician's private life affects his public competence. In "A Question of Character" John F. Kennedy's two lives--public and

private--are examined to answer this timely question. Respected historian and biographer Thomas C. Reeves reveals discrepancies between JFK's public persona, which has reached mythic proportions, and his scandalous private behavior. Most illuminating is the constant theme of Joe Kennedy's almost total control of JFK's behavior and politics throughout most of his son's career. "The John Kennedy who emerges from these pages was not a man of good moral character. He was reared not to be good but to win." -- "Los Angeles Times" Reeves has provided the most truthful and balanced assessment of John F. Kennedy to date. Written more in sorrow than in anger, "A Question of Character" explores the sensitive and difficult question of how people, and history itself, ought to judge the relationship between personal character and national leadership. "From the Trade Paperback edition.
