## In Battle for Peace

## The Story of My 83rd Birthday

*Oxford University Press* **W. E. B. Du Bois was a public intellectual, sociologist, and activist on behalf of the African American community. He profoundly shaped black political culture in the United States through his founding role in the NAACP, as well as internationally through the Pan-African movement. Du Bois's sociological and historical research on African-American communities and culture broke ground in many areas, including the history of the post-Civil War Reconstruction period. Du Bois was also a prolific author of novels, autobiographical accounts, innumerable editorials and journalistic pieces, and several works of history. One of the most neglected and obscure books by W. E. B. Du Bois, In Battle for Peace frankly documents Du Bois's experiences following his attempts to mobilize Americans against the emerging conflict between the United States and the Soviet Union. A victim of McCarthyism, Du Bois endured a humiliating trial-he was later acquitted-and faced political persecution for over a decade. Part autobiography and part political statement, In Battle for Peace remains today a powerful analysis of race in America. With a series introduction by editor Henry Louis Gates, Jr., and an introduction by Manning Marable, this edition is essential for anyone interested in African American history.**

## Radar Instruction Manual

**Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. Robert J. Blackwell Assistant Secretary for Maritime Affairs**

## The Vintage Mencken

*Hadley Press* This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. **Not indexed. Not illustrated. 1902** Excerpt: ...earth.  $r'$  = radius of moon, or other body.  $P$  = moon's horizontal parallax = earth's angular semidiameter as seen from the moon.  $f$  = moon's angular semidiameter. Now  $= P$  (in circular measure),  $r'-r = r$  (in circular measure);  $\therefore r: r':: P: P'$ , or (radius of earth): (radius of moon):: (moon's parallax): (moon's semidiameter). **Examples.** 1. Taking the moon's horizontal parallax as  $57'$ , and its angular diameter as  $32'$ , find its radius in miles, assuming the earth's radius to be 4000 miles. Here moon's semidiameter =  $16'$ ;  $\therefore 4000:: 57': 16'$ ;  $\therefore r = 400 \frac{16}{57} = 1123$  miles. 2. The sun's horizontal parallax being  $8''8$ , and his angular diameter  $32V$  find his diameter in miles. ' Am. 872,727 miles. 3. The synodic period of Venus being 584 days, find the angle gained in each minute of time on the earth round the sun as centre. Am.  $1''-54$  per minute. 4. Find the angular velocity with which Venus crosses the sun's disc, assuming the distances of Venus and the earth from the sun are as 7 to 10, as given by Bode's Law. Since (fig. 50)  $S V: VA:: 7: 3$ . But  $Sr$  has a relative angular velocity round the sun of  $1''-54$  per minute (see Example 3); therefore, the relative angular velocity of  $A V$  round  $A$  is greater than this in the ratio of 7: 3, which gives an approximate result of  $3''-6$  per minute, the true rate being about  $4''$  per minute. Annual ParaUax. 95. We have already seen that no displacement of the observer due to a change of position on the earth's surface could apparently affect the direction of a fixed star. However, as the earth in its annual motion describes an orbit of about 92 million miles radius round the sun, the different positions in space from which an observer views the fixed stars from time to time throughout the year must be separated ...

## The Real Name of God

## Embracing the Full Essence of the Divine

*Simon and Schuster* Reveals the real, whole name of God and its place within each of us • Explains how none of the God-names commonly used in the Bible is God's real name • Shows how the real name of God unites all religions from both West and East • Includes spiritual techniques, prayers, poems, and meditative chants to bring each of us into deep, personal, intimate, living relationship with God Of the many names of God commonly used in the Bible and other sacred literature, none is God's real name. Every God-name, including YHWH, reflects only one of God's many aspects, such as the loving creator, the militaristic authoritarian, or the all-knowing judge. None embodies the wholeness, the totality, the full Essence of God. Who then are we to speak to when we seek God? If you can't truly know something until you know its name, how can we truly know God? The culmination of years of translation research and etymological investigation, Rabbi Wayne Dosick's work digs through many layers of presumption and deeply ingrained beliefs to reveal the real name of God hiding in plain sight in the Bible: Anochi. He shows how this sacred name unites all religions--both of the West and the East. The name Anochi enables us to finally meet the whole, complete, real God--both the grand God of the vast universe and the God of breath, soul, and heart who dwells within each of us. This in-depth exploration of God's name includes spiritual techniques, poems, guided prayers, and meditative chants to bring each of us into personal, intimate, and purposeful relationship with God. By knowing the real name of God, we can affirm the connection to the Divine at the core of our being. We can touch the face of God that resides deep within us all.
