Good Enough Is the New Perfect

Finding Happiness and Success in Modern Motherhood

Harlequin *In this updated 10th anniversary edition of Gillespie and Temple's groundbreaking research, Good Enough Is the New Perfect shows that modern mothers really can have it all. The pressure on women is real. We dominate in our jobs while simultaneously juggling the needs of our families and our homes. But what about our own needs? With so many balls in the air, finding balance is harder than ever. The truth is that you can have it all. The secret is creating an "all" that you love. Through their extensive research, Becky Beaupre Gillespie and Hollee Schwartz Temple have discovered a paradigm shift in motherhood: more and more mothers are losing their "never enough" attitude and embracing a "good enough" mindset to be happier, more confident and more fulfilled. With inspiring firsthand accounts from working mothers, Good Enough Is the New Perfect is a true roadmap for the incredible balancing act we call motherhood and getting what you really want out of your career, your family and your life. "Most moms I know don't even want it all. We just want less stress and enough time. But how can we achieve it? [Good Enough Is the New Perfect] sheds light on this question." —The Washington Post*

Janey the Vet

Saving Sri Lanka's Street Dogs

Michael O'Mara Books *'Janey is like a whirlwind of selflessness. A beautiful spirit in a beautiful country doing a beautiful thing. I encourage my children to be more 'Janey'. With more positive spirits like Janey, the world would be a better place.'* - Ben Fogle In 2014 and in her mid-twenties, Janey Lowes had been a vet for just two years when she left her home in County Durham and went travelling. Visiting Sri Lanka, she was horrified to see the state of so many of the island's dogs, in particular the three million strays. Over 5,000 miles from home, Janey decided there and then that she was going to move to the island indefinitely and do everything within her power to help them. She raised £10,000 to get started, setting up a charity called WECare Worldwide, and began work. Frightened, determined and excited all at the same time, she found a local who was willing to work with her and began scouring the streets for dogs in need. Some she patched up as best she could at the roadside, others she brought back and treated in a make-shift surgery she had cobbled together in her new home. With very little equipment, she and her small team came up with new and ingenious ways to treat the animals. In this highly inspiring and heartfelt book full of challenges and adventure, Janey introduces us to her world and the tireless work she carries out. As she says, 'I feel as though all these dogs are my dogs and I have a responsibility to them.' In it, we meet many of the colourful characters who have come to offer help, along with innumerable street dogs who have suffered all sorts of trauma and injury, only to be scooped up by Janey and her team and saved.

The Little Typer

MIT Press *An introduction to dependent types, demonstrating the most beautiful aspects, one step at a time. A program's type describes its behavior. Dependent types are a first-class part of a language, and are much more powerful than other kinds of types; using just one language for types and programs allows program descriptions to be as powerful as the programs they describe. The Little Typer explains dependent types, beginning with a very small language that looks very much like Scheme and extending it to cover both programming with dependent types and using dependent types for mathematical reasoning. Readers should be familiar with the basics of a Lisp-like programming language, as presented in the first four chapters of The Little Schemer. The first five chapters of The Little Typer provide the needed tools to understand dependent types; the remaining chapters use these tools to build*

a bridge between mathematics and programming. Readers will learn that tools they know from programming—pairs, lists, functions, and recursion—can also capture patterns of reasoning. The Little Typer does not attempt to teach either practical programming skills or a fully rigorous approach to types. Instead, it demonstrates the most beautiful aspects as simply as possible, one step at a time.

A Love Story

Jake McKallister might have been a rock star, but he was no ordinary one. Surviving an unspeakable crime as a young teen had shaped him into a guarded workaholic, and he now lived his life trying to forget. If it hadn't been for music and the redemption he found through it, he might not have survived. Career success came easily for him. Personal connections did not. When outspoken, vivacious college student Casey Caldwell was paired with the famously reserved rockstar for a friend's wedding, she was prepared for the worst. What could they possibly have in common? She was a bubbly talker; he was a reclusive loner. His life was filled with music; she couldn't carry a tune. She'd enjoyed a happy childhood; his was a well-publicized nightmare. Yet despite their obvious differences, Jake and Casey found each other, and her light balanced out his darkness. Would their love be strong enough to survive the weight of his tragic past?

The AIG Story

John Wiley & Sons Selected as one of Motley Fool's "5 Great Books You Should Read" In The AIG Story, the company's long-term CEO Hank Greenberg (1967 to 2005) and GW professor and corporate governance expert Lawrence Cunningham chronicle the origins of the company and its relentless pioneering of open markets everywhere in the world. They regale readers with riveting vignettes of how AIG grew from a modest group of insurance enterprises in 1970 to the largest insurance company in world history. They help us understand AIG's distinctive entrepreneurial culture and how its outstanding employees worldwide helped pave the road to globalization. Corrects numerous common misconceptions about AIG that arose due to its role at the center of the financial crisis of 2008. A unique account of AIG by one of the iconic business leaders of the twentieth century who developed close relationships with many of the most important world leaders of the period and helped to open markets everywhere. Offers new critical perspective on battles with N. Y. Attorney General Eliot Spitzer and the 2008 U.S. government seizure of AIG amid the financial crisis. Shares considerable information not previously made public. The AIG Story captures an impressive saga in business history--one of innovation, vision and leadership at a company that was nearly--destroyed with a few strokes of governmental pens. The AIG Story carries important lessons and implications for the U.S., especially its role in international affairs, its approach to business, its legal system and its handling of financial crises.

Reading Pedagogy in College Writing Classrooms

Routledge *What do we mean when we talk about reading? What does it mean to "teach reading?" What place does reading have in the college writing classroom? Intertexts: Reading Pedagogy in College Writing Classrooms* theoretically and practically situates the teaching of reading as a common pedagogical practice in the college writing classroom. As a whole, the book argues for rethinking the separation of reading and writing within the first-year writing classroom--for an expanded notion of reading that is based on finding and creating meaning from a variety of symbolic forms, not just print-based texts but also other forms, such as Web sites and visual images. The chapter authors represent a range of cultural, personal, and rhetorical perspectives, including cultural studies, classical rhetoric, visual rhetoric, electronic literacy, reader response theory, creative writing, and critical theories of literature and literary criticism. This volume, an important contribution to composition studies, is essential reading for researchers, instructors, writing program administrators, and students involved in college writing instruction and literature.

Subaltern Women's Narratives

Strident Voices, Dissenting Bodies

Routledge Subaltern Women's Narratives brings together intersectional feminist scholarship from the Humanities and Social Sciences and explores subaltern women's narratives of resistance and subversion. Interdisciplinary in nature, the collection focuses on fictional texts, archival records, and ethnographic research to explore the lived experiences of subaltern women in different marginalised communities across a wide geographical landscape, as they negotiate their way through modes of labour and activism. Thematically grouped, the focus of this book is two-fold: to look at the lived experiences of subaltern women as they negotiate their lives in a world of political flux and conflicts; and to examine subaltern women's dissenting practices as recorded in texts and archives. This collection will push the boundaries of scholarship on decolonial and postcolonial feminism and subaltern studies, reading women's subversive practices especially in the themes of epistemology and embodiment. This book is aimed primarily at scholars, postgraduates, and undergraduates working in the fields of colonial and postcolonial studies. It will appeal to both historians and scholars of nineteenth century and contemporary literature. Specifically scholars working on subaltern theory, feminist theory, indigenous cultures, anticolonial resistance, and the Global South will find this book particularly relevant.
