The book offers a concrete framework to help individuals of all levels, functions, and backgrounds take charge of their own leadership development and become the best leaders they can be. Arguing that all individuals are born with the capacity to lead, bestselling authors Kouzes and Posner provide readers with a practical series of actions and specific coaching tips for harnessing that capacity and creating a context in which they can excel. Supported by over 30 years of research, from over seventy countries, and with examples from real-world leaders, Learning Leadership is a clarion call to unleash the leadership potential that is already present in society today. Learning Leadership provides readers with evidence-based strategies to ignite the habit of continuous improvement and the mindset of becoming the best leaders they can be. Emerging leaders, as well as leadership developers, internal and external coaches and trainers, and other human resource professionals will learn from first-hand stories and practical examples so that they can deeply understand and apply the fundamentals for becoming the best leaders they can be. Learning Leadership: The Five Fundamentals of Becoming an Exemplary Leader is divided into digestible bite-sized chapters that encourage daily actions to becoming a better leader. Key takeaways from the book include: Believe in Yourself. Believing in oneself is the essential first step in developing leadership competencies. The best leaders are learners, and they*

can't achieve mastery until and unless they truly decide that inside them there is a person who can make a difference and learn to be a better leader than they are right now. *Aspire to Excel.* To become an exemplary leader, people must determine what they care most about and why they want to lead. Leaders with values-based motivations are the most likely to excel. They also must have a clear image of the kind of leader they want to be in the future—and the legacy they want to leave for others. *Challenge Yourself.* Challenging oneself is critical to learning leadership. Leaders must seek new experiences and test themselves. There will be inevitable setbacks and failures along the way that require curiosity, grit, courage, and resilience to persist in learning and becoming the best. *Engage Support.* One can't lead alone, and one can't learn alone. It is essential to get support and coaching on the path to achieving excellence. Whether it's family, managers at work, or professional coaches, leaders need the advice, feedback, care, and support of others. *Practice Deliberately.* No one gets better at anything without continuous practice. Exemplary leaders spend more time practicing than ordinary leaders. Simply being in the role of a leader is insufficient. To achieve mastery, leaders must set improvement goals, participate in designed learning experiences, ask for feedback, and get coaching. They also put in the time every day and make learning leadership a daily habit. Kouzes and Posner offer unrivaled insights into what it means to become an exemplary leader in today's world with their original research and over 30 years of experience studying the practices of extraordinary leadership. They show that anyone can become a better leader if they believe in themselves, aspire to excel, challenge themselves to grow, engage the support of others, and practice deliberately. *Learning Leadership* challenges readers to do the meaningful and disciplined work necessary to becoming the best they can, using a new mindset and toolkit that can make extraordinary things happen. It's not the once-in-a-while transformational acts that demonstrate leadership. It's the little things that one does day in and day out that pave the path to greatness.

THE LEADER IN ME

HOW SCHOOLS AND PARENTS AROUND THE WORLD ARE INSPIRING GREATNESS, ONE CHILD AT A TIME

Simon and Schuster Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

Based on reviewer response to a survey, the authors have updated many of the cases and instructors found outdated or lacking. As in the current edition, the book has a strong case foundation at Harvard and Stanford. Classic cases such as Claire McCloud have been kept, while newer cases such as Intel Corporation in 1999 have been added. There is also a strong set of readings from sources such as Harvard Business Review, California Management Review, and Sloan Management Review.
