STANDARD METHODS FOR THE EXAMINATION OF WATER AND WASTEWATER

"The signature undertaking of the Twenty-Second Edition was clarifying the QC practices necessary to perform the methods in this manual. Section in Part 1000 were rewritten, and detailed QC sections were added in Parts 2000 through 7000. These changes are a direct and necessary result of the mandate to stay abreast of regulatory requirements and a policy intended to clarify the QC steps considered to be an integral part of each test method. Additional QC steps were added to almost half of the sections."--Pref. p. iv.

SIMPLIFIED SIGNS

A MANUAL SIGN-COMMUNICATION SYSTEM FOR SPECIAL POPULATIONS. PRINCIPLES, BACKGROUND, AND APPLICATION. VOLUME 1

"Simplified Signs presents a system of manual sign communication intended for special populations who have had limited success mastering spoken or full sign languages. It is the culmination of over twenty years of research and development by the authors. The Simplified Sign System has been developed and tested for ease of sign comprehension, memorization, and formation by limiting the complexity of the motor skills required to form each sign, and by ensuring that each sign visually resembles the meaning it conveys. Volume 1 outlines the research underpinning and informing the project, and places the Simplified Sign System in a wider context of sign usage, historically and by different populations. Volume 2 presents the lexicon of signs, totalling approximately 1000 signs, each with a clear illustration and a written description of how the sign is formed, as well as a memory aid that connects the sign visually to the meaning that it conveys. While the Simplified Sign System originally was developed to meet the needs of persons with intellectual disabilities, cerebral palsy, autism, or aphasia, it may also assist the communication needs of a wider audience - such as healthcare professionals, aid workers, military personnel, travellers or parents, and children who have not yet mastered spoken language. The system also has been shown to enhance learning for individuals studying a foreign language. Lucid and comprehensive, this work constitutes a valuable resource that will enhance the communicative interactions of many different people, and will be of great interest to researchers and educators alike."--Publisher's website

NUCLEAR WAR SURVIVAL SKILLS

LIFESAVING NUCLEAR FACTS AND SELF-HELP INSTRUCTIONS

Skyhorse A field-tested guide to surviving a nuclear attack, written by a revered civil defense expert. This edition of Cresson H. Kearny's iconic Nuclear War Survival Skills (originally published in 1979), updated by Kearny himself in 1987 and again in 2001, offers expert advice for ensuring your family's safety should the worst come to pass. Chock-full of practical instructions and preventative measures, Nuclear War Survival Skills is based on years of meticulous scientific research conducted by Oak Ridge National Laboratory. Featuring a new introduction by ex-Navy SEAL Don Mann, this book also includes: instructions for six different fallout shelters, myths and facts about the dangers of nuclear weapons, tips for maintaining an adequate food and water supply, a foreword by "the father of the hydrogen bomb," physicist Dr. Edward Teller, and an "About the Author" note by Eugene P. Wigner, physicist and Nobel Laureate. Written at a time when global tensions were at their peak, Nuclear War Survival Skills remains relevant in the dangerous age in which we now live.

HARRY JOHNSON'S BARTENDERS MANUAL 1934 REPRINT

CreateSpace Complete Reprint of Harry Johnson's Bartenders' Manual, originally published 1882. "Harry Johnson was a professional bartender for most of his life and along with Jerry Thomas he was one of the first to write about his trade. Harry's rather opinionated thoughts on the bartending profession and how to run a bar, which takes up the first third of the book, make for a fascinating insight in to the world of nineteenth century bars. He wasn't afraid of boasting, describing one of his bars as "what was generally recognized to be the largest and finest establishment of the kind in this country," but the advice is clearly spoken from the heart about a profession he really believes in."
