The Blue Book of Grammar and Punctuation

An Easy-to-Use Guide with Clear Rules, Real-World Examples, and Reproducible Quizzes

John Wiley & Sons The bestselling workbook and grammar guide, revised and updated! Hailed as one of the best books around for teaching grammar, The Blue Book of Grammar and Punctuation includes easy-to-understand rules, abundant examples, dozens of reproducible quizzes, and pre- and post-tests to help teach grammar to middle and high schoolers, college students, ESL students, homeschoolers, and more. This concise, entertaining workbook makes learning English grammar and usage simple and fun. This updated 12th edition reflects the latest updates to English usage and grammar, and includes answers to all reproducible quizzes to facilitate self-assessment and learning. Clear and concise, with easy-to-follow explanations, offering "just the facts" on English grammar, punctuation, and usage Fully updated to reflect the latest rules, along with even more quizzes and pre- and post-tests to help teach grammar Ideal for students from seventh grade through adulthood in the US and abroad For anyone who wants to understand the major rules and subtle guidelines of English grammar and usage, The Blue Book of Grammar and Punctuation offers comprehensive, straightforward instruction.

A Million Reasons Why

A Novel

St. Martin's Press "Heartbreaking yet hopeful, this astute exploration of the bonds and limitations of family is a perfect book club pick." – New York Times bestselling author Joshilyn Jackson A Most Anticipated by Goodreads * SheReads * E! News * Frolic Jessica Strawser's A Million Reasons Why is "a fascinating foray into the questions we are most afraid to ask" (Jodi Picoult, #1 New York Times bestselling author)--the story of two women who discover a bond between them that will change both their lives forever. When two strangers are linked by a mail-in DNA test, it's an answered prayer—that is, for one half sister. For the other, it will dismantle everything she knows to be true. But as they step into the unfamiliar realm of sisterhood, the roles will reverse in ways no one could have foreseen. Caroline lives a full, happy life—thriving career, three feisty children, enviable marriage, and a close-knit extended family. She couldn't have scripted it better. Except for one thing: She's about to discover her fundamental beliefs about them all are wrong. Sela lives a life in shades of gray, suffering from irreversible kidney failure. Her marriage crumbled in the wake of her illness. Her beloved mother, always her closest friend, unexpectedly passed away. She refuses to be defined by her grief, but still, she worries what will happen to her two-year-old son if she doesn't find a donor match in time. She's the only one who knows Caroline is her half sister and may also be her best hope for a future. But Sela's world isn't as clear-cut as it appears—and one misstep could destroy it all. "A thrilling story of what happens when a long-held family secret comes to light...[Strawser] shows that no one is ever truly a villain or a hero, but instead, we are all a beautiful and messy mix of both." - Associated Press review

Oh Boy, You're Having a Girl

A Dad's Survival Guide to Raising Daughters

Simon and Schuster Rules for Raising Little Girls "As the father of a daughter, I wish I'd read this very funny book sooner, if only to know that it's OK for a grown man to wear a tutu." - Dave Barry "Required reading for any parent who doesn't know pants from leggings." - Dan Zevin, author of Dan Gets a Minivan: Life at the Intersection of Dude and Dad It's easy to imagine how you'd raise a boy--all the golf outings, lawnmower lessons, and Little League championships you'd attend--but playing dad to a little princess may take some education. In Oh Boy, You're Having a Girl, Brian, a father of three girls, shares his tactics for surviving this new and glittery world. From baby dolls and bedtime rituals to potty training and dance recitals, he leads you through all the trials and tribulations you'll face as you're raising your daughter. He'll also show you how to navigate your way through tough situations, like making sure that she doesn't start dating until she's fifty. Complete with commandments for restroom trips and properly participating in a tea party, Oh Boy, You're Having a Girl will brace you for all those hours playing house--and psych you up for the awesomeness of raising a daughter who has you lovingly wrapped around her little finger. "Somehow, Brian Klems has taken one of the most traumatic situations known to a father--having a daughter--and made it into something so completely hilarious you'll laugh until you've got oxygen deprivation!" - W. Bruce Cameron, author of 8 Simple Rules for Dating My Teenage Daughter

The Redbook

A Manual on Legal Style

West Academic This book provides a comprehensive guide to the essential rules of legal writing. Unlike most style or grammar guides, it focuses on the special needs of legal writers, answering a wide spectrum of questions about grammar and style -- both rules and exceptions. It also gives detailed, authoritative advice on punctuation, capitalization, spelling, footnotes, and citations, with illustrations in legal context. Designed for law students, law professors, practicing lawyers, and judges, the work emphasizes the ways in which legal writing differs from other styles of technical writing. Its how-to sections deal with editing and proofreading, numbers and symbols, and overall document design. Features: * Cautions on use of 500 stuffy phrases and needless legalisms, along with their everyday English translations * Details rules for 800 words with required prepositions in certain contexts * Explains the correct usage of more than 1,000 words that are often troublesome to legal writers * Gives tips on preparing briefs and other court documents, opinion letters and demand letters, research memos, and contracts * Provides model documents of all types of legal documents and pleadings Reviews 200 terms of art that take on new meanings in legal contexts

Into the Wilderness

Deborah Lee Luskin Deborah Lee Luskin's critically acclaimed love story, *Into the Wilderness*, follows Rose Mayer after she has just buried her second husband and wonders what she's going to do with the rest of her life. The year is 1964, and Rose is no longer a young woman. Reluctantly, she visits her son at his summer place in Vermont, where there are neither sidewalks, Democrats nor other Jews. There is, however, the Marlboro Music Festival. It's there that she meets Percy Mendell, a born and bred Vermonter who has never married, never voted for a Democrat, and never left the state. Both Rose and Percy confront habits of a lifetime, habits that interfere with their undeniable attraction to one another. Rose confronts her religious ignorance and spiritual beliefs, while Percy is forced to question his life-long political faith. All this takes place in the small Vermont town of Orton, (pop. 290). *Into the Wilderness* is a tale of the outsider infiltrating a new community and how all parties negotiate their differences. It's also a tale of rural Vermont at mid-century, a time when the major technological advance was the Interstate highway, a road-building project that changed rural America as much as the information highway is changing the world today. Readers routinely say, "I didn't want it to end but I couldn't put it down." *Into The Wilderness* has been hailed as "a fiercely intelligent love story" and "a perfectly gratifying read." "Into the Wilderness is a poignant description of a specific place but it is also a timeless story of human fulfillment," says Frank Bryan of UVM. "Luskin's heroine Rose Mayer is an honest to God miracle. Rarely has a fictional creation come to seem so perfectly real to me, and never have I cheered out loud as a character in a novel worked her way through the last stages of grief," adds author Philip Baruth. Deborah Lee Luskin often writes about Vermont, where she has lived since 1984. She is a commentator for Vermont Public Radio, a free-lance journalist, and a Visiting Scholar for the Vermont Humanities. *Into The Wilderness* is her first published novel.

It Was the Best of Sentences, It Was the Worst of Sentences

A Writer's Guide to Crafting Killer Sentences

Ten Speed Press In this wickedly humorous manual, language columnist June Casagrande uses grammar and syntax to show exactly what makes some sentences great—and other sentences suck. Great writing isn't born, it's built—sentence by sentence. But too many writers—and writing guides—overlook this most important unit. The result? Manuscripts that will never be published and writing careers that will never begin. With chapters on "Conjunctions That Kill" and "Words Gone Wild," this lighthearted guide is perfect for anyone who's dead serious about writing, from aspiring novelists to nonfiction writers, conscientious students to cheeky literati. So roll up your sleeves and prepare to craft one bold, effective sentence after another. Your readers will thank you.

The Little Rabbit

Simon and Schuster From beloved author/illustrator Nicola Killen comes an enchanting spring story about a magical friendship between a little girl and her stuffed rabbit who comes to life, lovingly told and illustrated in limited color with lovely foil and interactive die cut pages. Ollie and her favorite friend bunny have been waiting for the rain to stop and spring to come, and at long last the sun arrives. Ollie puts on her rain boots, wraps bunny in a warm scarf, and the two set off for exploring. Then a sudden breeze whispers past and bunny's nose twitches and their magical adventure begins... The Little Rabbit is sure to enchant and charm young readers and is great for sharing with a friend.

Numbers and the Making of Us

Counting and the Course of Human Cultures

Harvard University Press Number concepts are a human invention developed and refined over millennia. They allow us to grasp quantities precisely: recent research shows that most specific quantities are not perceived in the absence of a number system. Numbers are not innate or universal; yet without them, the world as we know it would not exist.

Data Visualization

A Practical Introduction

Princeton University Press An accessible primer on how to create effective graphics from data This book provides students and researchers a hands-on introduction to the principles and practice of data visualization. It explains what makes some graphs succeed while others fail, how to make high-quality figures from data using powerful and reproducible methods, and how to think about data visualization in an honest and effective way. Data Visualization builds the reader's expertise in ggplot2, a versatile visualization library for the R programming language. Through a series of worked examples, this accessible primer then demonstrates how to create plots piece by piece, beginning with summaries of single variables and moving on to more complex graphics. Topics include plotting continuous and categorical variables; layering information on graphics; producing effective "small multiple" plots; grouping, summarizing, and transforming data for plotting; creating maps; working with the output of statistical models; and refining plots to make them more comprehensible. Effective graphics are essential to communicating ideas and a great way to better understand data. This book provides the practical skills students and practitioners need to visualize quantitative data and get the most out of their research findings. Provides hands-on instruction using R and ggplot2 Shows how the "tidyverse" of data analysis tools makes working with R easier and more consistent Includes a library of data sets, code, and functions

Windmill

For fifteen years, Carl Steinar and his sons, Peter and Lyle, have maintained a tenuous balance, keeping together their family and farm on the western plains of Nebraska. Like blades in a well-oiled windmill, each works in harmony with the other. But when Abbie Blaire, the new reporter in town comes to write a story about them, a monkey wrench is thrown into their perfect machine: She is the spitting image of the wife and mother the Steinar men lost years ago. They soon find themselves on new trajectories in which their needs and goals can only collide.

Fluent in 3 Months

How Anyone at Any Age Can Learn to Speak Any Language from Anywhere in the World

Harper Collins Benny Lewis, who speaks over ten languages—all self-taught—runs the largest language-learning blog in the world, Fluent In 3 Months. Lewis is a full-time "language hacker," someone who devotes all of his time to finding better, faster, and more efficient ways to learn languages. Fluent in 3 Months: How Anyone at Any Age Can Learn to Speak Any Language from Anywhere in the World is a new blueprint for fast language learning. Lewis argues that you don't need a great memory or "the language gene" to learn a language quickly, and debunks a number of long-held beliefs, such as adults not being as good of language learners as children.

Writing Reports to Get Results

Quick, Effective Results Using the Pyramid Method

John Wiley & Sons The professional's quick-reference handbook for writing business and technical reports Professionals in business, government, and technical fields often need help in organizing and writing reports for associates, clients, and managers. This simple tutorial handbook offers expert tips and useful ideas for organizing ideas, structuring reports, and adding spice to technical papers. Writing Reports to Get Results offers in-depth guidance for writing: * short, informal reports, such as job progress reports and inspection reports * semiformal reports, such as laboratory and medium-length investigation and evaluation reports * formal reports, such as analytical and feasibility studies and major investigations * technical and business proposals of varying complexity The authors use a simple pyramid method to help writers organize their information into the most convenient and simplest structure for any type of document—from single-page proposals to full-length presentations. Rounding out this easy, instructional handbook are helpful tips on a number of other topics, such as: constructing reference lists and bibliographies; the use of numbers, abbreviations, and metric symbols; preparing illustrations for insertion into a report; and working collaboratively as a member of a writing team.

Garner's Modern American Usage

Oxford University Press A guide to proper American English word usage, grammar, pronunciation, and style features examples of good and bad usage from the media.

When the Night Comes

A Novel

Simon and Schuster Longlisted for the prestigious Miles Franklin Award, this “moving account of the depth of ordinary lives” (Library Journal, starred review) tells the story of a young Tasmanian girl and a Danish sailor and the brief encounter that leaves a lasting impact on both. Isla is a lonely girl who moves to Hobart with her mother and brother to try to better their lives. It’s not really working until they meet Bo, a crewman on an Antarctic supply ship, the Nella Dan, who shares stories about his adventures with them—his travels, bird watching, his home in Denmark, and life on board the ship. Isla is struggling to learn what truly matters and who to trust, while this modern Viking is searching to understand his past and to find a place in this world for himself. Though their time together is short, it is enough to change the course of both their lives. Praised for writing that is “vivid and distinct” (Library Journal, starred review) and “exquisite in its simplicity and eloquence” (Kirkus Reviews), Favel Parrett delivers a stunningly beautiful novel—“spare but memorable” (Booklist)—about the remarkable and unexpected bond forged between strangers.

Write-On Wipe-Off Let's Write Numbers

Highlights Press The reusable write-on wipe-off pages and wipe-clean marker provide endless hours of learning fun with puzzles and activities that help build math skills and lifelong learning confidence. Identifying numbers and counting are important steps toward math readiness, and Highlights (TM) infuses Fun with a Purpose® into this essential learning activity. With vibrant art and engaging prompts, Write-On Wipe-Off Let's Write Numbers exposes kids to numbers 0 - 20 through counting practice and the fun of puzzles and other activities. With write-on, wipe off pages, children can familiarize themselves with and practice writing numbers over and over, plus complete a variety of activities, such as Hidden Pictures® and That's Silly!(TM) puzzles, that reinforce the learning fun again and again.

German All-in-One For Dummies

John Wiley & Sons Learn to speak German? Easy. German All-in-One For Dummies conveniently combines titles from the German Dummies library into one handy guide that covers all of the bases of the German language. Offers instruction and practice exercises for both speaking and writing German. Helps you prepare to demonstrate proficiency in conversational German. If you want to improve your German, whether it's for work, travel, or enjoyment, German All-in-One For Dummies has you covered.

The Subversive Copy Editor

Advice from Chicago (or, How to Negotiate Good Relationships with Your Writers, Your Colleagues, and Yourself)

University of Chicago Press Each year writers and editors submit over three thousand grammar and style questions to the Q&A page at The Chicago Manual of Style Online. Some are arcane, some simply hilarious—and one editor, Carol Fisher Saller, reads every single one of them. All too often she notes a classic author-editor standoff, wherein both parties refuse to compromise on the “rights” and “wrongs” of prose styling: “This author is giving me a fit.” “I wish that I could just DEMAND the use of the serial comma at all times.” “My author wants his preface to come at the end of the book. This just seems ridiculous to me. I mean, it’s not a post-face.” In *The Subversive Copy Editor*, Saller casts aside this adversarial view and suggests new strategies for keeping the peace. Emphasizing habits of carefulness, transparency, and flexibility, she shows copy editors how to build an environment of trust and cooperation. One chapter takes on the difficult author; another speaks to writers themselves. Throughout, the focus is on serving the reader, even if it means breaking “rules” along the way. Saller’s own foibles and misadventures provide ample material: “I mess up all the time,” she confesses. “It’s how I know things.” Writers, Saller acknowledges, are only half the challenge, as copy editors can also make trouble for themselves. (Does any other book have an index entry that says “terrorists. See copy editors?”) The book includes helpful sections on e-mail etiquette, work-flow management, prioritizing, and organizing computer files. One chapter even addresses the special concerns of freelance editors. Saller’s emphasis on negotiation and flexibility will surprise many copy editors who have absorbed, along with the dos and don’ts of their stylebooks, an attitude that their way is the right way. In encouraging copy editors to banish their ignorance and disorganization, insecurities and compulsions, the Chicago Q&A presents itself as a kind of alter ego to the comparatively staid *Manual of Style*. In *The Subversive Copy Editor*, Saller continues her mission with audacity and good humor.

The Business Style Handbook, Second Edition: An A-to-Z Guide for Effective Writing on the Job

McGraw Hill Professional Revised and updated for the newest digital platforms—the classic guide to business writing style and protocols. While retaining all the valuable information that has made *The Business Style Handbook* a modern classic, the second edition provides new words, phrases and guidance to help you express yourself clearly, confidently and correctly on any digital platform. Writing by Numbers

Legal Writing Made Easy

["This book aims to demystify the legal writing process by providing concrete formulas-both macro and micro formulas-for mastering the content required for objective and persuasive legal analysis. The "macro" formula we start with in this book is CRAC, which stands for Conclusion \("C"\), Rule \("R"\), Analysis \("A"\), and Conclusion \("C"\). Within this macro formula, we use "micro" formulas to help you draft the different parts of CRAC. This book also takes different parts of legal work product, such as the introduction to a motion or the question presented of an objective memo, and breaks those parts down into components so that you can see how they are put together and then can write your own by applying those basic constructs. At each juncture of your legal writing journey, this book will give you a roadmap to follow \(and a step-by-step list of directions\) such that you will never feel completely lost and never find yourself faced with an entirely blank page"--](#)

A Manual for Writers of Research Papers, Theses, and Dissertations, Eighth Edition

Chicago Style for Students and Researchers

University of Chicago Press [A little more than seventy-five years ago, Kate L. Turabian drafted a set of guidelines to help students understand how to write, cite, and formally submit research writing. Seven editions and more than nine million copies later, the name Turabian has become synonymous with best practices in research writing and style. Her Manual for Writers continues to be the gold standard for generations of college and graduate students in virtually all academic disciplines. Now in its eighth edition, A Manual for Writers of Research Papers, Theses, and Dissertations has been fully revised to meet the needs of today's writers and researchers. The Manual retains its familiar three-part structure, beginning with an overview of the steps in the research and writing process, including formulating questions, reading critically, building arguments, and revising drafts. Part II provides an overview of citation practices with detailed information on the two main scholarly citation styles \(notes-bibliography and author-date\), an array of source types with contemporary examples, and detailed guidance on citing online resources. The final section treats all matters of editorial style, with advice on punctuation, capitalization, spelling, abbreviations, table formatting, and the use of quotations. Style and citation recommendations have been revised throughout to reflect the sixteenth edition of The Chicago Manual of Style. With an appendix on paper format and submission that has been vetted by dissertation officials from across the country and a bibliography with the most up-to-date listing of critical resources available, A Manual for Writers remains the essential resource for students and their teachers.](#)

The Higher Arithmetic

An Introduction to the Theory of Numbers

Cambridge University Press [The theory of numbers is generally considered to be the 'purest' branch of pure mathematics and demands exactness of thought and exposition from its devotees. It is also one of the most highly active and engaging areas of mathematics. Now into its eighth edition The Higher Arithmetic introduces the concepts and theorems of number theory in a way that does not require the reader to have an in-depth knowledge of the theory of numbers but also touches upon matters of deep mathematical significance. Since earlier editions, additional material written by J. H. Davenport has been added, on topics such as Wiles' proof of Fermat's Last Theorem, computers and number theory, and primality testing. Written to be accessible to the general reader, with only high school mathematics as prerequisite, this classic book is also ideal for undergraduate courses on number theory, and covers all the necessary material clearly and succinctly.](#)

How to Write a Song (Even If You've Never Written One Before and You Think You Suck)

[Once upon a time, there wasn't a song. Then, sometime later, there was. "How the \\$&%! did that happen?" you might ask. How to Write a Song \(Even If You've Never Written One Before and You Think You Suck\) is the definitive, no-nonsense and 100% beginner-proof guide to writing original songs. Whether you're a complete beginner or a more experienced songwriter looking to improve your songwriting process, How to Write a Song... walks you through a powerful, stimulating but simple process you can use to create great songs, time after time. It's not a formula. It's not a songwriting 'method'. You'll craft every single note and word of your song. You'll write in any style you like. Meanwhile, you'll learn not just what to do but why you're doing it - so you can use those skills in every other song you create. You'll be guided step-by-step through how to find a great song idea, how to choose an effective title, how to craft a solid lyric, how to write catchy melodies and grooves, and how to combine all of those parts effectively into a complete song. And best of all, literally all you need get started is some basic experience on piano or guitar, or with a Digital Audio Workstation like Logic, Ableton or GarageBand. Everything else is inside.](#)
