I bought this book for our homeschool history/geography studies for the next school year. What I like about this book is that not only are you doing book research you are coloring, challenging the student to answer questions about the continents, and finding the beauty of the world."

This book can be shared with our 4 homeschoolers which means we save money..." (read more about it at the end of the review). "It is very thorough and can be used with one student over an extended amount of time.
