MY FAVORITE THINGS

[Harper Collins](#) *Raindrops on roses and whiskers on kittens, Bright copper kettles and warm woolen mittens... "My Favorite Things," Rodgers and Hammerstein's beloved song from The Sound of Music, has captured the hearts of children young and old for generations. Its magical images -- cream-colored ponies and girls in white dresses -- paired with its lilting rhyme, never fail to delight. Now acclaimed illustrator Renee Graef gives this classic song new meaning with heartwarming full-color illustrations Of a loving family and their life throughout the course of a year. Complete with the score of the song, My Favorite Things is both a wonderful book for families to share and a gorgeous keepsake to cherish.*

PRACTICAL RECORDING TECHNIQUES

THE PHYSICS OF MUSICAL INSTRUMENTS

[Springer Science & Business Media](#) *While the history of musical instruments is nearly as old as civilisation itself, the science of acoustics is quite recent. By understanding the physical basis of how instruments are used to make music, one hopes ultimately to be able to give physical criteria to distinguish a fine instrument from a mediocre one. At that point science may be able to come to the aid of art in improving the design and performance of musical instruments. As yet, many of the subtleties in musical sounds of which instrument makers and musicians are aware remain beyond the reach of modern acoustic measurements. This book describes the results of such acoustical investigations - fascinating intellectual and practical exercises. Addressed to readers with a reasonable grasp of physics who are not put off by a little mathematics, this book discusses most of the traditional instruments currently in use in Western music. A guide for all who have an interest in music and how it is produced,*

as well as serving as a comprehensive reference for those undertaking research in the field.

THE COMPLETE LYRICS OF OSCAR HAMMERSTEIN II

Alfred a Knopf Incorporated Spanning the full career of the eminent musical dramatist, from the 1920s until his death in 1960, a comprehensive volume features the complete texts of more than 850 songs, including his notable work for the stage and screen with composers Jerome Kern and Richard Rodgers--*Show Boat, Oklahoma!, The Sound of Music*, and more. 20,000 first printing.

HANDMADE ELECTRONIC MUSIC

THE ART OF HARDWARE HACKING

Routledge *Handmade Electronic Music: The Art of Hardware Hacking* provides a long-needed, practical, and engaging introduction for students of electronic music, installation and sound-art to the craft of making--as well as creatively cannibalizing--electronic circuits for artistic purposes. Designed for practioners and students of electronic art, it provides a guided tour through the world of electronics, encouraging artists to get to know the inner workings of basic electronic devices so they can creatively use them for their own ends. *Handmade Electronic Music* introduces the basic of practical circuitry while instructing the student in basic electronic principles, always from the practical point of view of an artist. It teaches a style of intuitive and sensual experimentation that has been lost in this day of prefabricated electronic musical instruments whose inner workings are not open to experimentation. It encourages artists to transcend their fear of electronic technology to launch themselves into the pleasure of working creatively with all kinds of analog circuitry.

ELECTRONICS

A FIRST COURSE

Routledge This volume presents the basics of electricity and component types, and introduces students to practical work involving basic electronics. This text is intended for a wide range of introductory courses in electronics, technology, physics and engineering. The coverage includes GCSE Electronics, GCSE Design & Technology, Engineering GCSE and City & Guilds competence-based courses such as Level 2 NVQs. The author's approach is student-centred with self-test features to check understanding, including numerous activities suitable for practicals, homework and other assignments.

WHERE I'M FROM

POEMS FROM STUDENTS OF APPALACHIAN LITERATURE

"In the Fall of 2010 I gave an assignment in my Appalachian Literature class at Berea College, telling my students to write their own version of "Where I'm From" poem based on the writing prompt and poem by George Ella Lyon, one of the preeminent Appalachian poets. I was so impressed by the results of the assignment that I felt the poems needed to be preserved in a bound document. Thus, this little book. These students completely captured the complexities of this region and their poems contain all the joys and sorrows of living in Appalachia. I am proud that they were my students and I am very proud that together we produced this record of contemporary Appalachian Life" -- Silas House

RADAR INSTRUCTION MANUAL

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State

Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardized up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. Robert J. Blackwell Assistant Secretary for Maritime Affairs

I BELIEVE IN MUSIC

LIFE EXPERIENCES AND THOUGHTS ON THE FUTURE OF ELECTRONIC MUSIC BY THE FOUNDER OF THE ROLAND CORPORATION

Hal Leonard Corporation (Book). Published to coincide with the 30th anniversary of the Roland Corporation, this is the inspiring and heartfelt memoir of Ikutaro Kakehashi, a pioneering figure in electronic music instruments and the company's visionary founder. From war-torn Japan to his first watch repair business to the dawn of and subsequent enormous leaps of electronic musical instruments, Kakehashi's story is sometimes wry, sometimes touching, always wise. Through it all, Kakehashi has believed in music above else: his first priority has always been an unwavering passion for expanding the potential for artistic expression. Everyone from music aficionados to those looking for time-tested business savvy will enjoy his unique story. The book features fantastic photos throughout, including an 8-page full-color section. Ikutaro Kakehashi founded the Roland Corporation in 1972. He lives in Hosoe-cho, Hamamatsu City, Japan. Robert Olsen worked for 25 years in the international music trade before switching careers to become a college instructor and free-lance author. He lives in Northbrook, IL.

SOCIAL AND COMMUNICATION DEVELOPMENT IN AUTISM SPECTRUM DISORDERS

EARLY IDENTIFICATION, DIAGNOSIS, AND INTERVENTION

Guilford Press From leading clinical researchers, this volume presents important recent advances in understanding and treating autism spectrum disorders (ASD) in very young children. The book is grounded in cutting-edge findings on the social-communication behavior of typically and atypically developing infants, toddlers, and preschoolers. The contributors highlight the connections between ASD and specific early social-communication impairments - including problems with joint attention, imitation, and play - with a focus on what clinicians can do to help. Innovative screening and assessment procedures are reviewed, as are evidence-based intervention and prevention strategies. Throughout, attention to both real-world practice and research considerations enhances the book's utility as a clinical reference and text.

FUTURE MUSIC

ECHOES/□□

Blurb About Echoes During 2019-2020 I wrote over 300 short poems in a state of both great euphoria and agony, like giving birth to a baby. It's just like an everlasting rainy day and I danced in the wind and rain of poetic melodies, and wrote down something unexpected. These words are wild flowers blossoming at the end of summer and the pearls of grey traumas. I engraved the bloody fragrance of tabooed love on the pillar of marble stone and witnessed it wither and revive in the torrent of time. There are also endless metaphysical inquiries in my mind and I'm always on the road towards the light of truth which we can only approximately approach. We human beings live and think on the net fabricated by language where we can explore the meanings, values and space of understanding so that we might echo with each other in a subtle and soulful way. Echoes could be ripples on the surface of the blue lake and sound waves flowing from the shell of the ocean. Our heartbeats synchronize and our minds get merged into the one at certain moment of life when words build the bridge, and we breathe with the same rhythm.

MANAGING WORLD ORDER

UNITED NATIONS PEACE OPERATIONS AND THE SECURITY AGENDA

I.B. Tauris *Since the end of the Cold War, United Nations peace operations have become an established and prominent feature of world politics. From Liberia to East Timor, the UN now carries out extensive governance-related functions and is a significant political force in Southern states and societies. Here Richard Al-Qaq leads us to a radical new understanding of the UN and its role in international politics. He uncovers the political and socio-economic import of such 'peace' activities for subject societies, and raises important questions about the functioning and dynamics of the global political order. A critical view of the internal process of programmatic reform within the UN is elaborated by detailed studies of the politics of UN peace operations in three seminal cases of the 1990s, in Somalia, Rwanda and Angola. This book is essential for understanding the new role of the UN, especially in Africa, and the politics of so-called humanitarian intervention and peace-building.*

IN BATTLE FOR PEACE

THE STORY OF MY 83RD BIRTHDAY

Oxford University Press *W. E. B. Du Bois was a public intellectual, sociologist, and activist on behalf of the African American community. He profoundly shaped black political culture in the United States through his founding role in the NAACP, as well as internationally through the Pan-African movement. Du Bois's sociological and historical research on African-American communities and culture broke ground in many areas, including the history of the post-Civil War Reconstruction period. Du Bois was also a prolific author of novels, autobiographical accounts, innumerable editorials and journalistic pieces, and several works of history. One of the most neglected and obscure books by W. E. B. Du Bois, *In Battle for Peace* frankly documents Du Bois's experiences following his attempts to mobilize Americans against the emerging conflict between the United States and the Soviet Union. A victim of McCarthyism, Du Bois endured a humiliating trial-he was later acquitted-and faced political persecution for over a decade. Part autobiography and part political statement, *In Battle for Peace* remains today a powerful analysis of race in America. With a series introduction by editor Henry Louis Gates, Jr., and an introduction by Manning Marable, this edition is essential for anyone interested in African American history.*

FROM COTTON FIELDS TO UNIVERSITY LEADERSHIP

ALL EYES ON CHARLIE, A MEMOIR

Charlie Nelms had audaciously big dreams. Growing up black in the Deep South in the 1950s and 1960s, working in cotton fields, and living in poverty, Nelms dared to dream that he could do more with his life than work for white plantation owners sun-up to sun-down. Inspired by his parents, who first dared to dream that they could own their own land and have the right to vote, Nelms chose education as his weapon of choice for fighting racism and inequality. With hard work, determination, and the critical assistance of mentors who counseled him along the way, he found his way from the cotton fields of Arkansas to university leadership roles. Becoming the youngest and the first African American chancellor of a predominately white institution in Indiana, he faced tectonic changes in higher education during those ensuing decades of globalization, growing economic disparity, and political divisiveness. From Cotton Fields to University Leadership is an uplifting story about the power of education, the impact of community and mentorship, and the importance of dreaming big.

BETTER GAME CHARACTERS BY DESIGN

A PSYCHOLOGICAL APPROACH

CRC Press Games are poised for a major evolution, driven by growth in technical sophistication and audience reach. Characters that create powerful social and emotional connections with players throughout the game-play itself (not just in cut scenes) will be essential to next-generation games. However, the principles of sophisticated character design and interaction are not widely understood within the game development community. Further complicating the situation are powerful gender and cultural issues that can influence perception of characters. Katherine Isbister has spent the last 10 years examining what makes interactions with computer characters useful and engaging to different audiences. This work has revealed that the key to good design is leveraging player psychology: understanding what's memorable, exciting, and useful to a person about real-life social interactions, and applying those insights to character design. Game designers who create great characters often make use of these psychological principles without realizing it. Better Game Characters by Design gives game design professionals and other interactive media designers a framework for understanding how social roles and perceptions affect players' reactions to characters, helping produce stronger designs and better results.
