RACE TECH'S MOTORCYCLE SUSPENSION BIBLE

Motorbooks Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

Mountaineers Books [CLICK HERE](#) to download the first chapter from *Elwha: A River Reborn* (Provide us with a little information and we'll send your download directly to your inbox) A compelling exploration of one of the largest dam removal projects in the world—and the efforts to save a stunning Northwest ecosystem * Co-published with *The Seattle Times* * 125 color photographs, including rare historic images * Dam removal started in September 2011 while restoration work continues today In the fall of 2011, the *Times* was on hand when a Montana contractor removed the first pieces from two concrete dams on the Elwha River which cuts through the Olympic range. It was the beginning of the largest dam removal project ever undertaken in North America—one dam was 200 feet tall—and the start of an unprecedented attempt to restore an entire ecosystem. More than 70 miles of the Elwha and its tributaries course from the mountain headwaters to clamming beaches on the Strait of Juan de Fuca. Through interviews, field work, archival and historical research, and photojournalism, *The Seattle Times* has explored and reported on the dam removal, the Elwha ecosystem, its industrialization, and now its renewal. *Elwha: A River Reborn* is based on these feature articles. Richly illustrated with stunning photographs, as well as historic images, graphics, and a map, *Elwha* tells the interwoven stories of this region. Meet the Lower Elwha Klallam tribe, who anxiously await the return of renowned salmon runs savored over the generations in the stories of their elders. Discover the biologists and engineers who are bringing the dams down and laying the plan for renewal, including an unprecedented revegetation effort that will eventually cover more than 700 acres of mudflats. When the dam started to come down in Fall 2011—anticipated for more than 20 years since Congress passed the Elwha Restoration Act—it was the beginning of a \$350 million project observed around the world. *Elwha: A River Reborn* is inspiring and instructive, a triumphant story of place, people, and environment striving to come together. KICKING UP DIRT

A TRUE STORY OF DETERMINATION, DEAFNESS, AND DARING

Zondervan At nineteen, Ashley Fiolek is already the top female competitor in a tough men's sport: motocross, a form of off-road motorcycle racing that is one of the most competitive and dangerous extreme sports in the world. Since going pro in late 2007, Fiolek has taken gold at the X Games, won the American Women's Motocross Championship twice, and become the first woman in American motocross history to be signed to a factory team—the highest echelon of industry backing. But Fiolek's rise has not come without obstacles. Fiolek was born profoundly deaf, a handicap that makes everyday life difficult—and competition on the track downright dangerous. Originally misdiagnosed as "mildly retarded," she was a painfully shy and introverted child—until her parents introduced her to the world of dirt bikes, which helped her escape the silence in her head and connect with others who shared her passion. She began racing at seven, and as her successes grew through hard work and no small number of broken bones, so did her confidence. Fiolek has never believed her disability should stand in the way of her dreams. Nor has she allowed her gender to limit her career—motocross historically has been a men's sport, but with the love and support of her dirt-obsessed family, including her "Grandpa Motorcycle," her little brother, Kicker, and her dogs, Turbo and Rocco, Ashley has emerged as one of the sport's most talked-about stars, changing the way the entire

industry views women. Armed with her extraordinary talent, contagious grin, and deep faith in God, Fiolek continues to venture into unknown territory, relentlessly pushing herself—and women's motocross—to ever-greater heights. *Kicking Up Dirt* is a remarkable, inspiring tale of a young woman's courage and determination to succeed in the face of truly challenging obstacles.

MY LIFE WITH A WILD BIRD

Outskirts Press This is a true story about a special relationship that developed between a wild desert bird and the owner and friends of a special house in the Western Mojave in California. If you have ever looked into the eyes of a wild animal,

especially in its natural habitat, you know how special that moment can be. Anyone with a family pet knows the special bond between animal and man and it can be a truly amazing experience. In fact, most pet "owners" consider their animals to be an integral part of the family and include them in weddings, rely on them for protection and grieve upon their demise. Having an untamed animal not only approach you but maintain a constant presence throughout its life was transformative for me and became a defining part of my life. It is a story that is best shared and will hopefully enrich yours as well.
